Executive does not include this subdivision.

House revises the pupil membership definition to allow for a pupil in a middle college program to be counted for more than 1.0 FTE if the pupil is enrolled in more than the minimum number of instructional days and hours required under section 101 such that the pupil is expected to complete the 5-year program with both a high school diploma and 60 transferable college credits or an associate's degree in fewer than 5 years.

#### **Sec. 8b(3). Cyber Public School Academies (PSAs) – Assignment of District Codes – REVISED**

Executive provides that for a cyber PSA that does not provide instruction at a specific location, and is authorized by a non-statewide entity, the ISD of assignment shall be the ISD that would normally provide programs and services to the resident school district in which the administrative office of the cyber PSA is located. Also provides that the ISD required to provide programs and services remains the same for as long as the cyber PSA is operating.

House concurs with Executive

#### **Sec. 31a. At-Risk – REVISED**

Executive does the following:

- (1) Expands the goals of the program from A) English Language Arts (ELA) proficiency in grade 3 and B) college and career ready high school graduates to include C) Math proficiency in grade 8 and D) pupils attending school regularly.
- (2) Deletes the prohibition of funding to hold harmless or out-of-formula districts.
- (3) Expands the requirement that the district uses a multi-tiered systems of supports (MTSS) from K-3 to K-8.
- (4) Revises to base the district allocation formula on economically disadvantaged pupils rather than free lunch eligible pupils. Economically disadvantaged pupils are currently collected and reported by CEPI to the US Department of Education and include pupils who are eligible for both free and reduced-price lunch, Temporary Assistance to Needy Families (TANF), Supplemental Nutrition Assistance Program (SNAP), or are homeless, migrant, or in foster care. The expanded definition is estimated to increase the number of pupils for whom districts receive funding by 131,000.
- (5) Revises to base the district allocation formula on 11.5% times a statewide weighted average foundation allowance rather than each district's foundation allowance to eliminate the variation in per pupil funding among districts.
- (6) Requires a district to use at-risk funds for 4 goals or metrics that will be used to measure a district's success beginning in FY 2020-21 including chronic absenteeism rates, ELA proficiency in grade 3, Math proficiency in grade 8 and that at least 65% of high school pupils enroll in CTE, advanced placement, international baccalaureate, or dual-enrollment programs and that at least 80% of those pupils have successfully completed the courses.
- (7) Allows a district to use up to 5% of its funds for professional development related to MTSS and improving the goal metrics.
- (8) Revises the definition of at-risk pupil for the provision of services to pupils who are economically disadvantaged or English language learners and who failed or is at risk of failing to be proficient in grade 3 ELA or grade 8 math or is chronically absent.
- (9) Requires that MDE identify districts that do not meet the goal metrics by FY 2020-21 and partner with the district to review and revise district programs and practices.

House concurs with Executive except does not allow a district to use up to 5% of its funds for professional development; requires MDE to identify districts that do not meet the goal metrics by FY 2018-19 rather than FY 2020-21; and requires that the form and manner prescribed by MDE for the district report on use of at-risk funds be prescribed in a way that does not limit a district's ability to use funds on any activity permissible under this section.

**Major Boilerplate Changes From FY 2016-17**

**Secs. 31a and 39a(1)(f). Transportation Reimbursement/Voucher – NEW**

Executive does not include this section.

House adds intent language for FY 2018-19 that a portion funds appropriated in Sections 31a (At-Risk) and 39a(1)(f) (federal Title I) shall be used to reimburse districts that provide transportation or transportation vouchers or passes to students attending a district that is not their resident district or a public school academy.

**Sec 32d. Great Start Readiness Program (GSRP) – REVISED**

Executive revises to require that 100% rather than 90% of GSRP participants meet the income eligibility of family income less than 250% of the federal poverty level. Deletes provision that allows a program to serve children in families with income up to 300% of the federal poverty level if all of the eligible children under 250% are served.

House concurs with Executive, but makes the following revisions: bars an entity that has an approved GSRP curriculum from being eligible for a grant to conduct a longitudinal evaluation of children who have participated in GSRP programs; adds Connect4Learning as an age-appropriate educational curriculum for GSRP.

**Sec. 39. Great Start Readiness Program (GSRP) Formula Allocation – REVISED**

Executive eliminates the process whereby ISDs individually estimate the number of children eligible for the program and replaces it with an estimate provided by the MDE based on American Community Survey Census data.

Revises the formula allocation from being based on a half-day slot to number of children served in a school day program. The allocation for a child in a school day program would remain \$7,250 per day, or \$3,625 if in blended GSRP/Head Start program. An ISD would be allocated under the initial round of funding an amount equal to the amount they received in the prior year or an amount necessary to fund their available capacity if it is less than the prior year. Creates a statewide benchmark of the percent of eligible children that were served by the program in previous year, currently at 60%. If funds remain after the initial allocations, remaining funding would be distributed to ISDs based on their proportional share of children unserved if they are below the state benchmark.

House concurs with Executive.

**Sec. 164g. Legal Action Against the State – NEW**

House establishes a penalty in an amount equal to the amount spent if a district or ISD uses funds appropriated under this act to pay for an expense relating to any legal action initiated by the district or ISD against the state.

**Sec. 164h. Collective Bargaining Agreement Penalty – NEW**

House establishes a penalty equal to 5% of total state aid if a district or ISD enters into a collective bargaining agreement that does any of the following: establishes racial and religious preferences for employees; automatically deducts union dues from employee compensation; is in conflict with any state or federal laws regarding district transparency; includes a method of compensation that does not comply with the requirements of section 1250 of the Revised School Code, MCL 380.1250.
