

Pearl (West of Campau to Ottawa) Resurfacing

OCCUPANT
220 LYON ST NW UNIT 100
GRAND RAPIDS MI 49503

The City of Grand Rapids will resurface Pearl (west of Campau to Ottawa) this construction season. You received this letter because you are within 350 feet of the project. Reith-Riley is the contractor that will perform this work.

Tentative Construction Schedule

April - May 2017

Contact Information

311 or 616-456-3000
communityengagement@grcity.us
grcity.us/roadconstruction

After-Hours Emergency Number

616-456-3249

Design

The project will:

- resurface the road; lane configurations will stay the same.
- upgrade sidewalks and ramps to be compliant with the Americans with Disabilities Act.

Business Guide

As we work to improve the street, we understand that businesses are sensitive to construction. For this reason, we've created a guide containing tips and tricks for businesses during construction. Please find it at grcity.us/constructionbusinessguide.

Construction Information

Street Resurfacing Process

Resurfacing is a road rehabilitation process that extends the road life and prevents costlier reconstruction. During construction, the contractors will:

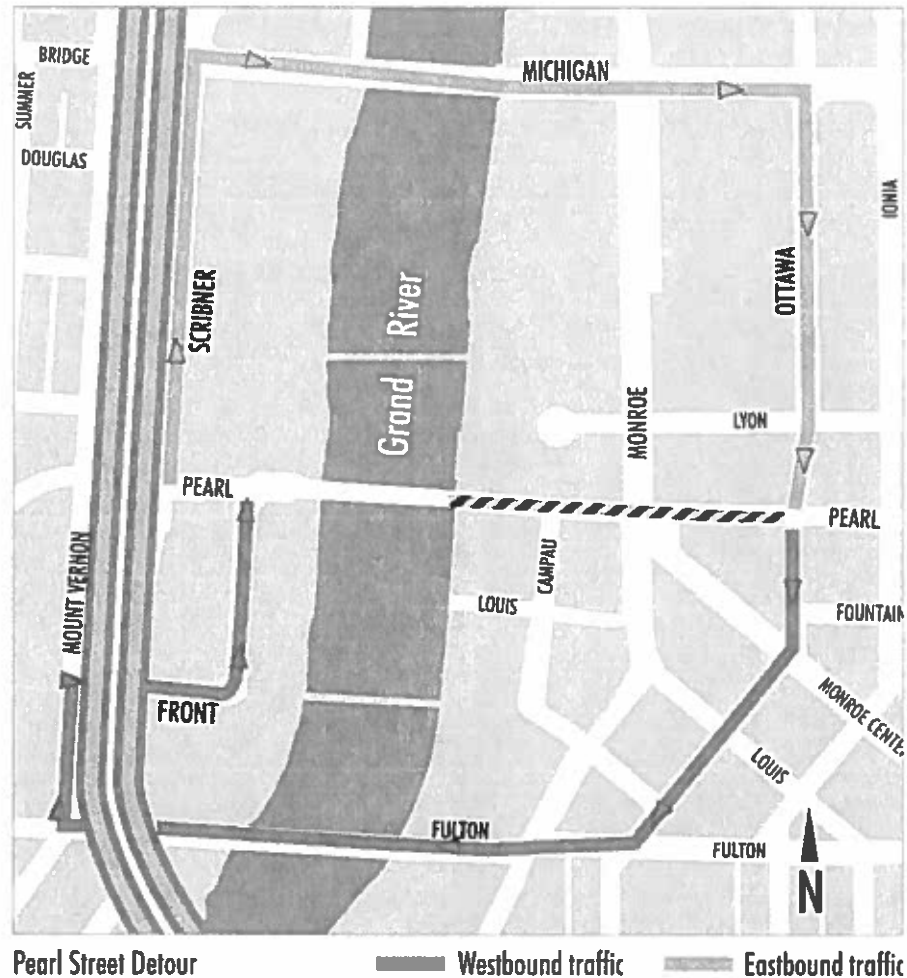

1. Upgrade sidewalks and ramps to be compliant with the Americans with Disabilities Act.
2. Use a milling machine to remove and grind the road surface with a conveyor system loading debris into trucks. Rotomilling is noisy but typically only lasts one day.
3. Adjust manholes to be level with the road.
4. Pave the road with one or more layers of asphalt.

Driveway Approaches and Sidewalks

- Driveway access may be delayed thirty minutes to two hours while road work is directly in front of a driveway.
- Some sidewalk squares will be replaced. The contractor will coordinate with those affected in advance if the work impacts driveways or entrances to buildings.

Access

- During construction, the road will be closed to through traffic and local access will be maintained to the extent possible.
- Detours will be clearly marked and are depicted on the map below.
 - The westbound detour will utilize Ottawa, Fulton, Mt. Vernon, and Front.
 - The eastbound detour will utilize Scribner, Bridge/Michigan, and Ottawa.

Other Items

- Recycling and refuse will be maintained but bins must be placed in their normal spots the night before collection day. Failing to do so may result in a missed collection. When trucks cannot access the street due to construction, the contractor will move the bins to where they can be emptied and return them.
- Mail delivery will be maintained.
- Typical construction hours are from 7 a.m. to 7 p.m. Monday through Saturday. Occasionally, work may be done on Sunday. Work hours are dependent on weather and the contractor's schedule.
