Special Education, March 9, 2016

Program Fiscal Review Subrecipient Monitoring

•Pitfalls

- Know the Allowable Cost Guide
- Have someone managing special education approvals
- Costs cover services for children from age 3-21

Calculate the Proportionate Share

- Each LEA must expend, during the grant period, on the provision of special education and related services for the parentally-placed private school children with disabilities enrolled in private elementary schools and secondary schools located in the LEA an amount that is equal to –
 - 1) A proportionate share of the LEA's subgrant under section 611(f) of the Act for children with disabilities aged 3 through 21.
 - 2) A proportionate share of the LEA's subgrant under section 619(g) of the Act for children with disabilities aged 3 through 5.
- The LEA must calculate the proportionate share amount for both their IDEA flowthrough and preschool allocations, separately.

 Proportionate Share Powerpoint on MDE website

Grant number: (ie: 140450) _____

School Year: _____

School District: _____

Number of eligible children (3-21) with disabilities in public schools in the LEA (same count as used for allocation calculation)	300
Number of parentally placed eligible children (3-21) with disabilities in private elementary and secondary schools located in the LEA	20
Total Number of Eligible Children	320

IDEA Flowthrough (Section 611) Funds allocated to district \$ 152,500.00

Total Flowthrough allocation divided by total number of eligible children =
Average allocation per eligible child \$ 476,562.5

Multiply by Number of parentally-placed children (3-21) with disabilities 20

Flowthrough Grant - Total Proportionate Share

\$ 9,531.25 (This is the minimum that must be charged to the current year Flowthrough Grant. Total proportionate share can span the 2 year period of the grant.)

Carryover

- "...LEA must spend" the proportionate share
 - If fails to spend entire proportionate share for the given year → LEA must obligate remaining funds for equitable services for a carry-over period of one additional year.
- At end of carry-over year?
 - Assuming LEA is in compliance with Child Find, consultation, and other IDEA equitable services requirements → LEA may use the unexpended funds to pay for other allowable Part B expenditures for that same LEA. The SEA is responsible for ensuring that LEAs are in compliance with these requirements. 34 CFR §§300.149(a) and 300.600(b)(2)
 - If the LEA is not in compliance with these requirements and has not expended the funds on parentally-placed private school children, the LEA must return the funds to the U.S. Department of Education (Department of Education).

There are MANY additional requirements for the provision of services to Non Public Schools

- Child Find
- Yearly Consultation
- Time and Effort documentation

- Registered Home Schools are included in these requirements
