

**Coronavirus Relief Fund
Frequently Asked Questions
Updated as of October 19, 2020¹**

The following answers to frequently asked questions supplement Treasury’s Coronavirus Relief Fund (“Fund”) Guidance for State, Territorial, Local, and Tribal Governments, updated as of September 2, 2020 (“Guidance”).² Amounts paid from the Fund are subject to the restrictions outlined in the Guidance and set forth in section 601(d) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”).

A. Eligible Expenditures

1. *Are governments required to submit proposed expenditures to Treasury for approval?*

No. Governments are responsible for making determinations as to what expenditures are necessary due to the public health emergency with respect to COVID-19 and do not need to submit any proposed expenditures to Treasury.

2. *The Guidance says that funding can be used to meet payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. How does a government determine whether payroll expenses for a given employee satisfy the “substantially dedicated” condition?*

The Fund is designed to provide ready funding to address unforeseen financial needs and risks created by the COVID-19 public health emergency. For this reason, and as a matter of administrative convenience in light of the emergency nature of this program, a State, territorial, local, or Tribal government may presume that payroll costs for public health and public safety employees are payments for services substantially dedicated to mitigating or responding to the COVID-19 public health emergency, unless the chief executive (or equivalent) of the relevant government determines that specific circumstances indicate otherwise.

3. *The Guidance says that a cost was not accounted for in the most recently approved budget if the cost is for a substantially different use from any expected use of funds in such a line item, allotment, or allocation. What would qualify as a “substantially different use” for purposes of the Fund eligibility?*

Costs incurred for a “substantially different use” include, but are not necessarily limited to, costs of personnel and services that were budgeted for in the most recently approved budget but which, due entirely to the COVID-19 public health emergency, have been diverted to substantially different functions. This would include, for example, the costs of redeploying corrections facility staff to enable compliance with COVID-19 public health precautions through work such as enhanced sanitation or enforcing social distancing measures; the costs of redeploying police to support management and enforcement of stay-at-home orders; or the costs of diverting educational support staff or faculty to develop online learning capabilities, such as through providing information technology support that is not part of the staff or faculty’s ordinary responsibilities.

¹ On August 10, 2020, these Frequently Asked Questions were revised to add Questions A.49–52. On September 2, 2020, Questions A.53–56 were added and Questions A.34 and A.38 were revised. On October 19, 2020, Questions A.57–59 and B.13 were added and Questions A.42, 49, and 53 were revised.

² The Guidance is available at <https://home.treasury.gov/system/files/136/Coronavirus-Relief-Fund-Guidance-for-State-Territorial-Local-and-Tribal-Governments.pdf>.

Note that a public function does not become a “substantially different use” merely because it is provided from a different location or through a different manner. For example, although developing online instruction capabilities may be a substantially different use of funds, online instruction itself is not a substantially different use of public funds than classroom instruction.

4. *May a State receiving a payment transfer funds to a local government?*

Yes, provided that the transfer qualifies as a necessary expenditure incurred due to the public health emergency and meets the other criteria of section 601(d) of the Social Security Act. Such funds would be subject to recoupment by the Treasury Department if they have not been used in a manner consistent with section 601(d) of the Social Security Act.

5. *May a unit of local government receiving a Fund payment transfer funds to another unit of government?*

Yes. For example, a county may transfer funds to a city, town, or school district within the county and a county or city may transfer funds to its State, provided that the transfer qualifies as a necessary expenditure incurred due to the public health emergency and meets the other criteria of section 601(d) of the Social Security Act outlined in the Guidance. For example, a transfer from a county to a constituent city would not be permissible if the funds were intended to be used simply to fill shortfalls in government revenue to cover expenditures that would not otherwise qualify as an eligible expenditure.

6. *Is a Fund payment recipient required to transfer funds to a smaller, constituent unit of government within its borders?*

No. For example, a county recipient is not required to transfer funds to smaller cities within the county’s borders.

7. *Are recipients required to use other federal funds or seek reimbursement under other federal programs before using Fund payments to satisfy eligible expenses?*

No. Recipients may use Fund payments for any expenses eligible under section 601(d) of the Social Security Act outlined in the Guidance. Fund payments are not required to be used as the source of funding of last resort. However, as noted below, recipients may not use payments from the Fund to cover expenditures for which they will receive reimbursement.

8. *Are there prohibitions on combining a transaction supported with Fund payments with other CARES Act funding or COVID-19 relief Federal funding?*

Recipients will need to consider the applicable restrictions and limitations of such other sources of funding. In addition, expenses that have been or will be reimbursed under any federal program, such as the reimbursement by the federal government pursuant to the CARES Act of contributions by States to State unemployment funds, are not eligible uses of Fund payments.

9. *Are States permitted to use Fund payments to support state unemployment insurance funds generally?*

To the extent that the costs incurred by a state unemployment insurance fund are incurred due to the COVID-19 public health emergency, a State may use Fund payments to make payments to its respective state unemployment insurance fund, separate and apart from such State's obligation to the unemployment insurance fund as an employer. This will permit States to use Fund payments to prevent expenses related to the public health emergency from causing their state unemployment insurance funds to become insolvent.

10. *Are recipients permitted to use Fund payments to pay for unemployment insurance costs incurred by the recipient as an employer?*

Yes, Fund payments may be used for unemployment insurance costs incurred by the recipient as an employer (for example, as a reimbursing employer) related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

11. *The Guidance states that the Fund may support a "broad range of uses" including payroll expenses for several classes of employees whose services are "substantially dedicated to mitigating or responding to the COVID-19 public health emergency." What are some examples of types of covered employees?*

The Guidance provides examples of broad classes of employees whose payroll expenses would be eligible expenses under the Fund. These classes of employees include public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. Payroll and benefit costs associated with public employees who could have been furloughed or otherwise laid off but who were instead repurposed to perform previously unbudgeted functions substantially dedicated to mitigating or responding to the COVID-19 public health emergency are also covered. Other eligible expenditures include payroll and benefit costs of educational support staff or faculty responsible for developing online learning capabilities necessary to continue educational instruction in response to COVID-19-related school closures. Please see the Guidance for a discussion of what is meant by an expense that was not accounted for in the budget most recently approved as of March 27, 2020.

12. *In some cases, first responders and critical health care workers that contract COVID-19 are eligible for workers' compensation coverage. Is the cost of this expanded workers compensation coverage eligible?*

Increased workers compensation cost to the government due to the COVID-19 public health emergency incurred during the period beginning March 1, 2020, and ending December 30, 2020, is an eligible expense.

13. *If a recipient would have decommissioned equipment or not renewed a lease on particular office space or equipment but decides to continue to use the equipment or to renew the lease in order to respond to the public health emergency, are the costs associated with continuing to operate the equipment or the ongoing lease payments eligible expenses?*

Yes. To the extent the expenses were previously unbudgeted and are otherwise consistent with section 601(d) of the Social Security Act outlined in the Guidance, such expenses would be eligible.

14. *May recipients provide stipends to employees for eligible expenses (for example, a stipend to employees to improve telework capabilities) rather than require employees to incur the eligible cost and submit for reimbursement?*

Expenditures paid for with payments from the Fund must be limited to those that are necessary due to the public health emergency. As such, unless the government were to determine that providing assistance in the form of a stipend is an administrative necessity, the government should provide such assistance on a reimbursement basis to ensure as much as possible that funds are used to cover only eligible expenses.

15. *May Fund payments be used for COVID-19 public health emergency recovery planning?*

Yes. Expenses associated with conducting a recovery planning project or operating a recovery coordination office would be eligible, if the expenses otherwise meet the criteria set forth in section 601(d) of the Social Security Act outlined in the Guidance.

16. *Are expenses associated with contact tracing eligible?*

Yes, expenses associated with contact tracing are eligible.

17. *To what extent may a government use Fund payments to support the operations of private hospitals?*

Governments may use Fund payments to support public or private hospitals to the extent that the costs are necessary expenditures incurred due to the COVID-19 public health emergency, but the form such assistance would take may differ. In particular, financial assistance to private hospitals could take the form of a grant or a short-term loan.

18. *May payments from the Fund be used to assist individuals with enrolling in a government benefit program for those who have been laid off due to COVID-19 and thereby lost health insurance?*

Yes. To the extent that the relevant government official determines that these expenses are necessary and they meet the other requirements set forth in section 601(d) of the Social Security Act outlined in the Guidance, these expenses are eligible.

19. *May recipients use Fund payments to facilitate livestock depopulation incurred by producers due to supply chain disruptions?*

Yes, to the extent these efforts are deemed necessary for public health reasons or as a form of economic support as a result of the COVID-19 health emergency.

20. *Would providing a consumer grant program to prevent eviction and assist in preventing homelessness be considered an eligible expense?*

Yes, assuming that the recipient considers the grants to be a necessary expense incurred due to the COVID-19 public health emergency and the grants meet the other requirements for the use of Fund payments under section 601(d) of the Social Security Act outlined in the Guidance. As a general matter, providing assistance to recipients to enable them to meet property tax requirements would not be an eligible use of funds, but exceptions may be made in the case of assistance designed to prevent foreclosures.

21. *May recipients create a “payroll support program” for public employees?*

Use of payments from the Fund to cover payroll or benefits expenses of public employees are limited to those employees whose work duties are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

22. *May recipients use Fund payments to cover employment and training programs for employees that have been furloughed due to the public health emergency?*

Yes, this would be an eligible expense if the government determined that the costs of such employment and training programs would be necessary due to the public health emergency.

23. *May recipients use Fund payments to provide emergency financial assistance to individuals and families directly impacted by a loss of income due to the COVID-19 public health emergency?*

Yes, if a government determines such assistance to be a necessary expenditure. Such assistance could include, for example, a program to assist individuals with payment of overdue rent or mortgage payments to avoid eviction or foreclosure or unforeseen financial costs for funerals and other emergency individual needs. Such assistance should be structured in a manner to ensure as much as possible, within the realm of what is administratively feasible, that such assistance is necessary.

24. *The Guidance provides that eligible expenditures may include expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures. What is meant by a “small business,” and is the Guidance intended to refer only to expenditures to cover administrative expenses of such a grant program?*

Governments have discretion to determine what payments are necessary. A program that is aimed at assisting small businesses with the costs of business interruption caused by required closures should be tailored to assist those businesses in need of such assistance. The amount of a grant to a small business to reimburse the costs of business interruption caused by required closures would also be an eligible expenditure under section 601(d) of the Social Security Act, as outlined in the Guidance.

25. *The Guidance provides that expenses associated with the provision of economic support in connection with the public health emergency, such as expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures, would constitute eligible expenditures of Fund payments. Would such expenditures be eligible in the absence of a stay-at-home order?*

Fund payments may be used for economic support in the absence of a stay-at-home order if such expenditures are determined by the government to be necessary. This may include, for example, a grant program to benefit small businesses that close voluntarily to promote social distancing measures or that are affected by decreased customer demand as a result of the COVID-19 public health emergency.

26. *May Fund payments be used to assist impacted property owners with the payment of their property taxes?*

Fund payments may not be used for government revenue replacement, including the provision of assistance to meet tax obligations.

27. *May Fund payments be used to replace foregone utility fees? If not, can Fund payments be used as a direct subsidy payment to all utility account holders?*

Fund payments may not be used for government revenue replacement, including the replacement of unpaid utility fees. Fund payments may be used for subsidy payments to electricity account holders to the extent that the subsidy payments are deemed by the recipient to be necessary expenditures incurred due to the COVID-19 public health emergency and meet the other criteria of section 601(d) of the Social Security Act outlined in the Guidance. For example, if determined to be a necessary expenditure, a government could provide grants to individuals facing economic hardship to allow them to pay their utility fees and thereby continue to receive essential services.

28. *Could Fund payments be used for capital improvement projects that broadly provide potential economic development in a community?*

In general, no. If capital improvement projects are not necessary expenditures incurred due to the COVID-19 public health emergency, then Fund payments may not be used for such projects.

However, Fund payments may be used for the expenses of, for example, establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity or improve mitigation measures, including related construction costs.

29. *The Guidance includes workforce bonuses as an example of ineligible expenses but provides that hazard pay would be eligible if otherwise determined to be a necessary expense. Is there a specific definition of “hazard pay”?*

Hazard pay means additional pay for performing hazardous duty or work involving physical hardship, in each case that is related to COVID-19.

30. *The Guidance provides that ineligible expenditures include “[p]ayroll or benefits expenses for employees whose work duties are not substantially dedicated to mitigating or responding to the COVID-19 public health emergency.” Is this intended to relate only to public employees?*

Yes. This particular nonexclusive example of an ineligible expenditure relates to public employees. A recipient would not be permitted to pay for payroll or benefit expenses of private employees and any financial assistance (such as grants or short-term loans) to private employers are not subject to the restriction that the private employers’ employees must be substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

31. *May counties pre-pay with CARES Act funds for expenses such as a one or two-year facility lease, such as to house staff hired in response to COVID-19?*

A government should not make prepayments on contracts using payments from the Fund to the extent that doing so would not be consistent with its ordinary course policies and procedures.

32. *Must a stay-at-home order or other public health mandate be in effect in order for a government to provide assistance to small businesses using payments from the Fund?*

No. The Guidance provides, as an example of an eligible use of payments from the Fund, expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures. Such assistance may be provided using amounts received from the Fund in the absence of a requirement to close businesses if the relevant government determines that such expenditures are necessary in response to the public health emergency.

33. *Should States receiving a payment transfer funds to local governments that did not receive payments directly from Treasury?*

Yes, provided that the transferred funds are used by the local government for eligible expenditures under the statute. To facilitate prompt distribution of Title V funds, the CARES Act authorized Treasury to make direct payments to local governments with populations in excess of 500,000, in amounts equal to 45% of the local government's per capita share of the statewide allocation. This statutory structure was based on a recognition that it is more administratively feasible to rely on States, rather than the federal government, to manage the transfer of funds to smaller local governments. Consistent with the needs of all local governments for funding to address the public health emergency, States should transfer funds to local governments with populations of 500,000 or less, using as a benchmark the per capita allocation formula that governs payments to larger local governments. This approach will ensure equitable treatment among local governments of all sizes.

For example, a State received the minimum \$1.25 billion allocation and had one county with a population over 500,000 that received \$250 million directly. The State should distribute 45 percent of the \$1 billion it received, or \$450 million, to local governments within the State with a population of 500,000 or less.

34. *May a State impose restrictions on transfers of funds to local governments?*

Yes, to the extent that the restrictions facilitate the State's compliance with the requirements set forth in section 601(d) of the Social Security Act outlined in the Guidance and other applicable requirements such as the Single Audit Act, discussed below. Other restrictions, such as restrictions on reopening that do not directly concern the use of funds, are not permissible.

35. *If a recipient must issue tax anticipation notes (TANs) to make up for tax due date deferrals or revenue shortfalls, are the expenses associated with the issuance eligible uses of Fund payments?*

If a government determines that the issuance of TANs is necessary due to the COVID-19 public health emergency, the government may expend payments from the Fund on the interest expense payable on TANs by the borrower and unbudgeted administrative and transactional costs, such as necessary payments to advisors and underwriters, associated with the issuance of the TANs.

36. *May recipients use Fund payments to expand rural broadband capacity to assist with distance learning and telework?*

Such expenditures would only be permissible if they are necessary for the public health emergency. The cost of projects that would not be expected to increase capacity to a significant extent until the need for distance learning and telework have passed due to this public health emergency would not be necessary due to the public health emergency and thus would not be eligible uses of Fund payments.

37. *Are costs associated with increased solid waste capacity an eligible use of payments from the Fund?*

Yes, costs to address increase in solid waste as a result of the public health emergency, such as relates to the disposal of used personal protective equipment, would be an eligible expenditure.

38. *May payments from the Fund be used to cover across-the-board hazard pay for employees working during a state of emergency?*

No. Hazard pay means additional pay for performing hazardous duty or work involving physical hardship, in each case that is related to COVID-19. Payments from the fund may only be used to cover such hazard pay.

39. *May Fund payments be used for expenditures related to the administration of Fund payments by a State, territorial, local, or Tribal government?*

Yes, if the administrative expenses represent an increase over previously budgeted amounts and are limited to what is necessary. For example, a State may expend Fund payments on necessary administrative expenses incurred with respect to a new grant program established to disburse amounts received from the Fund.

40. *May recipients use Fund payments to provide loans?*

Yes, if the loans otherwise qualify as eligible expenditures under section 601(d) of the Social Security Act as implemented by the Guidance. Any amounts repaid by the borrower before December 30, 2020, must be either returned to Treasury upon receipt by the unit of government providing the loan or used for another expense that qualifies as an eligible expenditure under section 601(d) of the Social Security Act. Any amounts not repaid by the borrower until after December 30, 2020, must be returned to Treasury upon receipt by the unit of government lending the funds.

41. *May Fund payments be used for expenditures necessary to prepare for a future COVID-19 outbreak?*

Fund payments may be used only for expenditures necessary to address the current COVID-19 public health emergency. For example, a State may spend Fund payments to create a reserve of personal protective equipment or develop increased intensive care unit capacity to support regions in its jurisdiction not yet affected, but likely to be impacted by the current COVID-19 pandemic.

42. *May funds be used to satisfy non-federal matching requirements under the Stafford Act?*

Yes, payments from the Fund may be used to meet the non-federal matching requirements for Stafford Act assistance, including FEMA's Emergency Management Performance Grant (EMPG) and EMPG Supplemental programs, to the extent such matching requirements entail COVID-19-related costs that otherwise satisfy the Fund's eligibility criteria and the Stafford Act. Regardless of the use of Fund payments for such purposes, FEMA funding is still dependent on FEMA's determination of eligibility under the Stafford Act.

43. *Must a State, local, or tribal government require applications to be submitted by businesses or individuals before providing assistance using payments from the Fund?*

Governments have discretion to determine how to tailor assistance programs they establish in response to the COVID-19 public health emergency. However, such a program should be structured in such a manner as will ensure that such assistance is determined to be necessary in response to the COVID-19 public health emergency and otherwise satisfies the requirements of the CARES Act and other applicable law. For example, a per capita payment to residents of a particular jurisdiction without an assessment of individual need would not be an appropriate use of payments from the Fund.

44. *May Fund payments be provided to non-profits for distribution to individuals in need of financial assistance, such as rent relief?*

Yes, non-profits may be used to distribute assistance. Regardless of how the assistance is structured, the financial assistance provided would have to be related to COVID-19.

45. *May recipients use Fund payments to remarket the recipient's convention facilities and tourism industry?*

Yes, if the costs of such remarketing satisfy the requirements of the CARES Act. Expenses incurred to publicize the resumption of activities and steps taken to ensure a safe experience may be needed due to the public health emergency. Expenses related to developing a long-term plan to reposition a recipient's convention and tourism industry and infrastructure would not be incurred due to the public health emergency and therefore may not be covered using payments from the Fund.

46. *May a State provide assistance to farmers and meat processors to expand capacity, such to cover overtime for USDA meat inspectors?*

If a State determines that expanding meat processing capacity, including by paying overtime to USDA meat inspectors, is a necessary expense incurred due to the public health emergency, such as if increased capacity is necessary to allow farmers and processors to donate meat to food banks, then such expenses are eligible expenses, provided that the expenses satisfy the other requirements set forth in section 601(d) of the Social Security Act outlined in the Guidance.

47. *The guidance provides that funding may be used to meet payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. May Fund payments be used to cover such an employee's entire payroll cost or just the portion of time spent on mitigating or responding to the COVID-19 public health emergency?*

As a matter of administrative convenience, the entire payroll cost of an employee whose time is substantially dedicated to mitigating or responding to the COVID-19 public health emergency is eligible, provided that such payroll costs are incurred by December 30, 2020. An employer may also track time spent by employees related to COVID-19 and apply Fund payments on that basis but would need to do so consistently within the relevant agency or department.

48. *May Fund payments be used to cover increased administrative leave costs of public employees who could not telework in the event of a stay at home order or a case of COVID-19 in the workplace?*

The statute requires that payments be used only to cover costs that were not accounted for in the budget most recently approved as of March 27, 2020. As stated in the Guidance, a cost meets this requirement if either (a) the cost cannot lawfully be funded using a line item, allotment, or allocation within that budget or (b) the cost is for a substantially different use from any expected use of funds in such a line item, allotment, or allocation. If the cost of an employee was allocated to administrative leave to a greater extent than was expected, the cost of such administrative leave may be covered using payments from the Fund.

49. Are States permitted to use Coronavirus Relief Fund payments to satisfy non-federal matching requirements under the Stafford Act, including “lost wages assistance” authorized by the Presidential Memorandum on Authorizing the Other Needs Assistance Program for Major Disaster Declarations Related to Coronavirus Disease 2019 (August 8, 2020)?

Yes. As previous guidance has stated, payments from the Fund may be used to meet the non-federal matching requirements for Stafford Act assistance to the extent such matching requirements entail COVID-19-related costs that otherwise satisfy the Fund’s eligibility criteria and the Stafford Act. States are fully permitted to use payments from the Fund to satisfy 100% of their cost share for lost wages assistance recently made available under the Stafford Act. If a State makes a payment to an individual under the “lost wages assistance” program and later determines that such individual was ineligible for the program, the ineligibility determination has the following consequences:

- The State incurs an obligation to FEMA in the amount of the payment to the ineligible individual. A State’s obligation to FEMA for making an improper payment to an individual under the “lost wages assistance” program is not incurred due to the public health emergency and, therefore, payments made pursuant to this obligation would not be an eligible use of the Fund.
- The “lost wages assistance” payment to the ineligible individual would be deemed to be an ineligible expense for purposes of the Fund, and any amount charged to the Fund (e.g., to satisfy the initial non-federal matching requirement) would be subject to recoupment.

50. At what point would costs be considered to be incurred in the case of a grant made by a State, local, or tribal government to cover interest and principal amounts of a loan, such as might be provided as part of a small business assistance program in which the loan is made by a private institution?

A grant made to cover interest and principal costs of a loan, including interest and principal due after the period that begins on March 1, 2020, and ends on December 30, 2020 (the “covered period”), will be considered to be incurred during the covered period if (i) the full amount of the loan is advanced to the borrower within the covered period and (ii) the proceeds of the loan are used by the borrower to cover expenses incurred during the covered period. In addition, if these conditions are met, the amount of the grant will be considered to have been used during the covered period for purposes of the requirement that expenses be incurred within the covered period. Such a grant would be analogous to a loan provided by the Fund recipient itself that incorporates similar loan forgiveness provisions. As with any other assistance provided by a Fund recipient, such a grant would need to be determined by the recipient to be necessary due to the public health emergency.

51. If governments use Fund payments as described in the Guidance to establish a grant program to support businesses, would those funds be considered gross income taxable to a business receiving the grant under the Internal Revenue Code (Code)?

Please see the answer provided by the Internal Revenue Service (IRS) available at <https://www.irs.gov/newsroom/cares-act-coronavirus-relief-fund-frequently-asked-questions>.

52. If governments use Fund payments as described in the Guidance to establish a loan program to support businesses, would those funds be considered gross income taxable to a business receiving the loan under the Code?

Please see the answer provided by the IRS available at <https://www.irs.gov/newsroom/cares-act-coronavirus-relief-fund-frequently-asked-questions>.

53. *May Fund recipients incur expenses associated with the safe reopening of schools?*

Yes, payments from the Fund may be used to cover costs associated with providing distance learning (e.g., the cost of laptops to provide to students) or for in-person learning (e.g., the cost of acquiring personal protective equipment for students attending schools in-person or other costs associated with meeting Centers for Disease Control guidelines).

Treasury recognizes that schools are generally incurring an array of COVID-19-related expenses to either provide distance learning or to re-open. To this end, as an administrative convenience, Treasury will presume that expenses of up to \$500 per elementary and secondary school student are eligible expenditures, such that schools do not need to document the specific use of funds up to that amount.

If a Fund recipient avails itself of the presumption in accordance with the previous paragraph with respect to a school, the recipient may not also cover the costs of additional re-opening aid to that school other than those associated with the following, in each case for the purpose of addressing COVID-19:

- expanding broadband capacity;
- hiring new teachers;
- developing an online curriculum;
- acquiring computers and similar digital devices;
- acquiring and installing additional ventilation or other air filtering equipment;
- incurring additional transportation costs; or
- incurring additional costs of providing meals.

Across all levels of government, the presumption is limited to \$500 per student, e.g., if a school is funded by a state and a local government, the presumption claimed by each recipient must add up to no more than \$500. Furthermore, if a Fund recipient uses the presumption with respect to a school, any other Fund recipients providing aid to that school may not use the Fund to cover the costs of additional aid to schools other than with respect to the specific costs listed above.

The following examples help illustrate how the presumption may or may not be used:

Example 1: State A may transfer Fund payments to each school district in the State totaling \$500 per student. State A does not need to document the specific use of the Fund payments by the school districts within the State.

Example 2: Suppose State A from example 1 transferred Fund payments to the school districts in the State in the amount of \$500 per elementary and secondary school student. In addition, because State A is availing itself of the \$500 per elementary and secondary school student presumption, State A also may use Fund payments to expand broadband capacity and to hire new teachers, but it may not use Fund payments to acquire additional furniture.

54. *May Fund recipients upgrade critical public health infrastructure, such as providing access to running water for individuals and families in rural and tribal areas to allow them to maintain proper hygiene and defend themselves against the virus?*

Yes, fund recipients may use payments from the Fund to upgrade public health infrastructure, such as providing individuals and families access to running water to help reduce the further spread of the virus. As required by the CARES Act, expenses associated with such upgrades must be incurred by

December 30, 2020. Please see Treasury's Guidance as updated on June 30 regarding when a cost is considered to be incurred for purposes of the requirement that expenses be incurred within the covered period.

55. *How does a government address the requirement that the allowable expenditures are not accounted for in the budget most recently approved as of March 27, 2020, once the government enters its new budget year on July 1, 2020 (for governments with June 30 fiscal year ends) or October 1, 2020 (for governments with September 30 year ends)?*

As provided in the Guidance, the "most recently approved" budget refers to the enacted budget for the relevant fiscal period for the particular government, without taking into account subsequent supplemental appropriations enacted or other budgetary adjustments made by that government in response to the COVID-19 public health emergency. A cost is not considered to have been accounted for in a budget merely because it could be met using a budgetary stabilization fund, rainy day fund, or similar reserve account.

Furthermore, the budget most recently approved as of March 27, 2020, provides the spending baseline against which expenditures should be compared for purposes of determining whether they may be covered using payments from the Fund. This spending baseline will carry forward to a subsequent budget year if a Fund recipient enters a different budget year between March 27, 2020 and December 30, 2020. The spending baseline may be carried forward without adjustment for inflation.

56. *Does the National Environmental Policy Act, 42 U.S.C. § 4321 et seq, (NEPA) apply to projects supported by payments from the Fund?*

NEPA does not apply to Treasury's administration of the Fund. Projects supported with payments from the Fund may still be subject to NEPA review if they are also funded by other federal financial assistance programs

57. *Public universities have incurred expenses associated with providing refunds to students for education-related expenses, including tuition, room and board, meal plans, and other fees (such as activities fees). Are these types of public university student refunds eligible uses of Fund payments?*

If the responsible government official determines that expenses incurred to refund eligible higher education expenses are necessary and would be incurred due to the public health emergency, then such expenses would be eligible as long as the expenses satisfy the other criteria set forth in section 601(d) of the Social Security Act. Eligible higher education expenses may include, in the reasonable judgment of the responsible government official, refunds to students for tuition, room and board, meal plan, and other fees (such as activities fees). Fund payments may not be used for expenses that have been or will be reimbursed by another federal program (including, for example, the Higher Education Emergency Relief Fund administered by the Department of Education).

58. *May payments from the Fund be used for real property acquisition and improvements and to purchase equipment to address the COVID-19 public health emergency?*

The expenses of acquiring or improving real property and of acquiring equipment (e.g., vehicles) may be covered with payments from the Fund in certain cases. For example, Treasury's initial guidance referenced coverage of the costs of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs, as an eligible use of funds. Any such use must be consistent with the requirements of section 601(d) of the Social Security Act as added by the CARES Act.

As with all uses of payments from the Fund, the use of payments to acquire or improve property is limited to that which is necessary due to the COVID-19 public health emergency. In the context of acquisitions of real estate and acquisitions of equipment, this means that the acquisition itself must be necessary. In particular, a government must (i) determine that it is not able to meet the need arising from the public health emergency in a cost-effective manner by leasing property or equipment or by improving property already owned and (ii) maintain documentation to support this determination. Likewise, an improvement, such as the installation of modifications to permit social distancing, would need to be determined to be necessary to address the COVID-19 public health emergency.

Previous guidance regarding the requirement that payments from the Fund may only be used to cover costs that were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020 focused on the acquisition of goods and services and leases of real property and equipment, but the same principles apply to acquisitions and improvements of real property and acquisitions of equipment. Such acquisitions and improvements must be completed and the acquired or improved property or acquisition of equipment be put to use in service of the COVID-19-related use for which it was acquired or improved by December 30. Finally, as with all costs covered with payments from the Fund, such costs must not have been previously accounted for in the budget most recently approved as of March 27, 2020.

59. *If a small business received a Small Business Administration (SBA) Payment Protection Program (PPP) or Economic Injury Disaster Loan (EIDL) grant or loan due to COVID-19, may the small business also receive a grant from a unit of government using payments from the Fund?*

Receiving a PPP or EIDL grant or loan for COVID-19 would not necessarily make a small business ineligible to receive a grant from Fund payments made to a recipient. As discussed in previous Treasury guidance on use of the Fund, a recipient's small business assistance program should be tailored to assist those businesses in need of such assistance. In assessing the business' need for assistance, the recipient would need to take into account the business' receipt of the PPP or EIDL loan or grant. If the business has received a loan from the SBA that may be forgiven, the recipient should assume for purposes of determining the business' need that the loan will be forgiven. In determining the business' eligibility for the grant, the recipient should not rely on self-certifications provided to the SBA.

If the grant is being provided to the small business to assist with particular expenditures, the business must not have already used the PPP or EIDL loan or grant for those expenditures. The assistance provided from the Fund would need to satisfy all of the other requirements set forth in section 601(d) of the Social Security Act as discussed in Treasury's guidance and FAQs, and the business would need to comply with all applicable requirements of the PPP or EIDL program.

Treasury's Office of Inspector General has provided the following guidance in its FAQ no. 65 on reporting and recordkeeping that would apply to the recipient:

The prime recipient is responsible for determining the level and detail of documentation needed from the sub-recipient of small business assistance to satisfy [the requirements of section 601(d) of the Social Security Act], however, there would need to be some proof that the small business was impacted by the public health emergency and was thus eligible for the CRF funds.

In the above OIG FAQ, "sub-recipient" refers to the beneficiary of the assistance, *i.e.*, the small business.

B. Questions Related to Administration of Fund Payments

1. *Do governments have to return unspent funds to Treasury?*

Yes. Section 601(f)(2) of the Social Security Act, as added by section 5001(a) of the CARES Act, provides for recoupment by the Department of the Treasury of amounts received from the Fund that have not been used in a manner consistent with section 601(d) of the Social Security Act. If a government has not used funds it has received to cover costs that were incurred by December 30, 2020, as required by the statute, those funds must be returned to the Department of the Treasury.

2. *What records must be kept by governments receiving payment?*

A government should keep records sufficient to demonstrate that the amount of Fund payments to the government has been used in accordance with section 601(d) of the Social Security Act.

3. *May recipients deposit Fund payments into interest bearing accounts?*

Yes, provided that if recipients separately invest amounts received from the Fund, they must use the interest earned or other proceeds of these investments only to cover expenditures incurred in accordance with section 601(d) of the Social Security Act and the Guidance on eligible expenses. If a government deposits Fund payments in a government's general account, it may use those funds to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures. Fund payments are not subject to the Cash Management Improvement Act of 1990, as amended.

4. *May governments retain assets purchased with payments from the Fund?*

Yes, if the purchase of the asset was consistent with the limitations on the eligible use of funds provided by section 601(d) of the Social Security Act.

5. *What rules apply to the proceeds of disposition or sale of assets acquired using payments from the Fund?*

If such assets are disposed of prior to December 30, 2020, the proceeds would be subject to the restrictions on the eligible use of payments from the Fund provided by section 601(d) of the Social Security Act.

6. *Are Fund payments to State, territorial, local, and tribal governments considered grants?*

No. Fund payments made by Treasury to State, territorial, local, and Tribal governments are not considered to be grants but are "other financial assistance" under 2 C.F.R. § 200.40.

7. *Are Fund payments considered federal financial assistance for purposes of the Single Audit Act?*

Yes, Fund payments are considered to be federal financial assistance subject to the Single Audit Act (31 U.S.C. §§ 7501-7507) and the related provisions of the Uniform Guidance, 2 C.F.R. § 200.303 regarding internal controls, §§ 200.330 through 200.332 regarding subrecipient monitoring and management, and subpart F regarding audit requirements.

8. *Are Fund payments subject to other requirements of the Uniform Guidance?*

Fund payments are subject to the following requirements in the Uniform Guidance (2 C.F.R. Part 200): 2 C.F.R. § 200.303 regarding internal controls, 2 C.F.R. §§ 200.330 through 200.332 regarding subrecipient monitoring and management, and subpart F regarding audit requirements.

9. *Is there a Catalog of Federal Domestic Assistance (CFDA) number assigned to the Fund?*

Yes. The CFDA number assigned to the Fund is 21.019.

10. *If a State transfers Fund payments to its political subdivisions, would the transferred funds count toward the subrecipients' total funding received from the federal government for purposes of the Single Audit Act?*

Yes. The Fund payments to subrecipients would count toward the threshold of the Single Audit Act and 2 C.F.R. part 200, subpart F re: audit requirements. Subrecipients are subject to a single audit or program-specific audit pursuant to 2 C.F.R. § 200.501(a) when the subrecipients spend \$750,000 or more in federal awards during their fiscal year.

11. *Are recipients permitted to use payments from the Fund to cover the expenses of an audit conducted under the Single Audit Act?*

Yes, such expenses would be eligible expenditures, subject to the limitations set forth in 2 C.F.R. § 200.425.

12. *If a government has transferred funds to another entity, from which entity would the Treasury Department seek to recoup the funds if they have not been used in a manner consistent with section 601(d) of the Social Security Act?*

The Treasury Department would seek to recoup the funds from the government that received the payment directly from the Treasury Department. State, territorial, local, and Tribal governments receiving funds from Treasury should ensure that funds transferred to other entities, whether pursuant to a grant program or otherwise, are used in accordance with section 601(d) of the Social Security Act as implemented in the Guidance.

13. *What are the differences between a subrecipient and a beneficiary under the Fund for purposes of the Single Audit Act and 2 C.F.R. Part 200, Subpart F regarding audit requirements?*

The Single Audit Act and 2 C.F.R. Part 200, Subpart F regarding audit requirements apply to any non-federal entity, as defined in 2 C.F.R. 200.69, that receives payments from the Fund in the amount of \$750,000 or more. Non-federal entities include subrecipients of payments from the Fund, including recipients of transfers from a State, territory, local government, or tribal government that received a payment directly from Treasury. However, subrecipients would not include individuals and organizations (e.g., businesses, non-profits, or educational institutions) that are beneficiaries of an assistance program established using payments from the Fund. The Single Audit Act and 2 C.F.R. Part 200, Subpart F regarding audit requirements do not apply to beneficiaries.
