GRETCHEN WHITMER  
GOVERNOR

STATE OF MICHIGAN  
OFFICE OF THE GOVERNOR  
LANSING

GARLIN GILCHRIST II  
LT. GOVERNOR

February 7, 2024

My Fellow Michiganders:

I am pleased to present my Executive Budget Recommendation for fiscal year 2025. This fiscally responsible budget is centered on lowering costs for Michigan residents, helping every child succeed from pre-K through postsecondary education, and ensuring any person or business can Make it in Michigan.

The initiatives in this budget proposal reflect my priorities—lowering costs, cutting red tape, reducing crime, powering economic development, ensuring every child has a high-quality education, and building a more fair, equitable Michigan.

This budget also marks a return to normal. Over the last few years, we harnessed the once-in-a-lifetime federal stimulus funds we received to make strategic investments that will yield long-term, tangible results and set us up well for the future. Since I took office, we have passed a balanced budget on time, every year; paid down more than \$21 billion in debt; and built up a record balance in our school and state rainy day funds of nearly \$2.5 billion.

The 2025 Executive Budget Recommendation contained in the following pages details my plan to move Michigan toward a more prosperous future. I look forward to working with the Legislature to finalize a budget by the July 1 deadline.

Sincerely,

A handwritten signature in blue ink that reads "Gretchen Whitmer".

Gretchen Whitmer  
Governor

# BUDGET OVERVIEW

---

# Executive Budget Summary

## For Fiscal Years 2025 and 2026

The fiscal year 2025 Executive Budget Recommendation sees a return to normal from previous budget cycles that were heavily focused on pandemic resources and investments. This recommendation continues to build on many pandemic-era programs for our schools, economy, and the environment, while lowering costs for families, reducing crime, and creating a fairer and more equitable Michigan for all residents.

Many investments in the FY25 Executive Budget Recommendation take a holistic approach to tackling the largest and most important expenses facing Michiganders: housing, child care, transportation, education, utilities, and the cost of food. By addressing the financial obstacles impacting the lives of our residents from cradle through career, the budget seeks to create opportunities for everyone to ‘make it’ in Michigan. The following investments continue to build on our momentum to ensure the state is a great place to live, work, raise a family, and care for those we love.

### **A Better, More Affordable Education**

Opportunities to attend good schools and an affordable college are the building blocks that families and young people need to succeed. The FY25 budget recommendation works to make quality education accessible like never before, with increases in funding for pre-K programs, K-12 classrooms, literacy support, and free associate degrees for graduating high school seniors across the state. These investments will guide our young people toward a life of success and encourage them to put down roots in our cities and vibrant communities.

Success starts before a student ever enters the classroom, which is why last year the Governor proposed Pre-K for All by the end of 2026, saving families \$10,000 a year. The need and wide-spread success of this initiative has only grown so this budget recommendation proposes increasing the speed at which this program is fully implemented, offering pre-K for every single 4-year-old in Michigan two years ahead of schedule.

For fiscal year 2025, pre-K to Grade 12 investments total \$1.9 billion. This includes a foundation allowance with weighted funding of \$370 million, a 2.5% increase that equates to \$241 per student, which will provide \$9,849 per-pupil for basic classroom and operational expenses. An additional increase of 5% is provided to weighted student populations, a \$125 million investment. The state’s general fund will provide \$51.6 million in support for additional educational programming such as professional development and providing remote learning guidance.

The fiscal year 2025 budget recommendation provides a 2.5% increase in ongoing funding for the state’s public universities and community colleges. In addition, the recommendation ensures that our young people are able to continue their education after they leave high school with the Community College Guarantee. This scholarship program will save an estimated 18,000 students up to \$4,820 per year once fully implemented and ensures every graduating senior can receive an associate degree or skilled certificate for free.

## **Lowering Costs**

Even as economic indicators strengthen, we know families are still experiencing higher than normal prices for everyday items. Several tax credits and cost-saving measures are recommended in this budget to help families make ends meet. The Governor recommends continuing healthy school meals for all of Michigan's 1.4 million public school students, and to supplement this, this budget provides resources to administer a federal summer meals program, saving families an additional \$120 per child. The budget also recommends a pilot project providing free child care for child care workers through the rest of the Governor's term, which will boost the workforce in this critical industry while saving families even more money.

Every dollar counts when you are making a family budget and that is why the Governor recommends the continuation of the Working Families Tax Credit, which will deliver nearly \$3,200 refunds to 700,000 families. In addition, to protect the resources retirees worked hard and saved for, the Governor recommends continuing the retirement tax rollback, providing 500,000 households with an average of \$1,000 in savings per year. A new tax credit for caregiving expenses is recommended this year, saving thousands of caregivers across the state up to \$5,000 on their taxes so they can spend more time with their loved ones without worrying about how they are going to pay the bills.

## **Growing the Economy and Protecting Our Environment**

The FY25 budget recommendation includes \$500 million in continued investment from the Strategic Outreach Attraction Reserve (SOAR) to attract new manufacturers and industries to Michigan helping to diversify our economy and compete nationally for high paying jobs. To compliment this attraction effort the Governor recommends further support for revitalization and placemaking, rural prosperity grants, business attraction and community revitalization, and a new evergreen-style Innovation Fund which provides universities and nonprofits funding to invest in tech start-ups, with all returns on investment being reinvested back into the program.

The budget recommendation also supports green economy initiatives by providing an additional investment in the Make it in Michigan Competitiveness Fund to leverage available federal funding opportunities focused on energy, technology, and climate. There are also investments to increase demand and use of electric and hybrid vehicles, including the MI Vehicle Rebate program, expanded charging infrastructure, and a continued push to transition all state fleet vehicles to electric.

In addition to these environmental investments, the budget recommendation proposes bringing parity to the state landfill tipping fee rate. This will help ensure corporations and out-of-state parties pay their fair share to use state landfills by bringing Michigan in line with other Midwest states. This equalization will also increase site readiness and reduce the amount of refuse debris coming into the state.

## **Reducing Crime and Keeping Michigan Healthy**

A large part of reducing crime and keeping Michigan healthy is investing in the local governments that directly support our communities. The budget recommends a 5% ongoing statutory revenue sharing increase for local units of governments, as well as a 2% one-time allocation specifically designed to support public safety. In addition, to ensure that COVID relief funds are being used in a timely manner to benefit the people who need them most, the budget recommends a 3% one-time incentive for local communities to obligate their recovery fund dollars. The budget also provides significant investment for

lifecycle upgrades to the state's safety communication system equipment and security, ensuring this critical infrastructure works for state and local emergency personnel.

The FY25 budget recommends various investments to reduce the recidivism of incarcerated individuals by providing them supports and resources as they reenter society. The budget calls for investments in educational programming, in-reach and peer-led reentry services, and proactively enrolling prisoners in Medicaid so they are set up with health insurance before they transition back into their communities. The budget also invests in juvenile justice reforms to ensure that our minors have fair representation and the supports they need to be successful citizens.

The wellbeing of Michigan families is not only supported by reducing crime, but also by ensuring residents have access to quality, supportive health care. This budget recommends continued funding in the Healthy Moms, Healthy Babies program which helps new and expectant mothers receive the care they need. In addition, an expansion of a program that provides new funds to communities that identify innovative approaches to support expectant parents and newborns.

Significant resources are recommended for behavioral and mental health services in the state, such as support for public safety and first responders to treat symptoms of post-traumatic stress disorder and other behavioral health concerns that may develop as a result of their profession. The budget also recommends a behavioral health clinic expansion, which will fund roughly a dozen new clinics across the state. In addition, investments in the behavioral health care workforce will help to attract and retain professionals by providing resources for continuing education and increasing Medicaid rate reimbursements for providers.

### **A More Fair, Equitable Michigan**

Healthcare is important for every Michigander, but some communities need more resources than others. To address disparity, the FY25 budget recommends increases to state support for community-based health clinics and mobile health units in areas with high social vulnerability and disparities in health access. The budget also supports improved nursing home inspection and investigation to better protect residents and provide timely services.

In addition to improved health services, the FY25 budget recommends several investments targeted at ensuring equity and fairness while enhancing services to disadvantaged populations. An expansion to the Michigan Department of Civil Rights will increase the number of enforcement teams that investigate and address discrimination complaints. Multicultural Service Grants and immigrant legal services will help new residents navigate state and nonprofit services. The budget also recommends additional translation services including improving language access by all state agencies and enhancements to the Qualified Interpreters program which provides state certification and credentialing to approximately 1,000 interpreters serving the deaf, deafblind, and hard of hearing community.

### **Total Budget and Fiscal Responsibility**

Governor Whitmer has prioritized fiscal responsibility since taking office and the FY25 Executive Budget Recommendation is no exception. This budget recognizes savings from prior investments into the Michigan Public School Employees' Retirement System which has now fully funded other post-employment retirement benefit obligations, freeing up \$670 million that will be invested back into

classrooms to help our kids learn. In total, the state will have paid off more than \$21 billion in debt since the start of the Governor's first term. The budget plan also continues to save for a rainy day with a \$100 million deposit to the Budget Stabilization Fund, which will bring the total fund balance to over \$2 billion.

The fiscal year 2025 Executive Budget Recommendation, including all state and federal revenue, totals \$80.7 billion. The state's total General Fund Budget is \$14.3 billion and the state's Education budget is \$23.4 billion.

## Table of Contents

## Department of Agriculture and Rural Development

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of Agriculture and Rural Development works to assure food safety, protect animal, and plant health, sustain environmental stewardship, provide consumer protection, and support rural development. The department encourages and embraces innovation, creativity, and growth to provide service to the robust food and agriculture industry and the residents of Michigan.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$144.2 million, of which \$77 million comes from the state's general fund.

---

### Highlights

The Governor's recommended budget continues support for the following key department programs:

- ♦ **\$4 million for a Farm to Family Program** (general fund) to support regenerative farming, agriculture supply chains, and promote Michigan food products in the home through a cooperative approach which will generate direct economic impacts.
  - ♦ **\$600,000 for Emergency Management Federal Support Grant Authorization** (federal fund) to support incident command trainings and services through emergency management grants from the USDA.
  - ♦ **Increase 24.0 full-time equated positions for the Michigan Agricultural Environmental Assurance Program Team** (restricted fund) to support program technicians as state employees. Technicians support on-farm best practices, with specific water quality improvement measures targeted in high priority watersheds, including Western Lake Erie Basin and Saginaw Bay.

## Department of Attorney General

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Attorney General is the top lawyer and law enforcement official for the State of Michigan and oversees the Department of Attorney General. The department's responsibilities include protecting the public from violent criminals, enforcing consumer protections, helping victims of crime, and investigating claims of innocence and youth resentencing. The department also provides legal advice and representation to state officials and agencies.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$127.7 million, of which \$56.4 million comes from the state's general fund. The Governor also recommends \$850,000 in one-time funding in fiscal year 2025, all of which comes from state restricted funds.

---

### Highlights

The Governor's recommended budget enhances support for the following key programs:

- ♦ **\$900,000 from the Utility Consumer Representation Fund** (state restricted funds) to support recently enacted legislation which provides additional funds to the Attorney General to oversee rate adjustments and litigation involving the Public Service Commission.
- ♦ **\$850,000 to assist the Michigan State Housing Development Authority (MSHDA)** in recovering fraudulently obtained funds. MSHDA distributed approximately \$1 billion of COVID funds during the pandemic, primarily for rental assistance. These state restricted funds will enable the Attorney General to investigate and prosecute related fraud cases.
- ♦ **\$780,500 for Cannabis Regulatory Agency** to provide additional state restricted funds to support the agency's oversight of medical and adult-use marijuana in Michigan. Total sales of \$3 billion in 2023 has resulted in expanding caseloads and litigation which require additional legal services.
- ♦ **\$740,000 for Michigan Department of Lifelong Education, Advancement, and Potential**, which supports the Governor's goal of improved early learning and higher education outcomes. These state restricted funds will allow the Attorney General to provide necessary legal services for this newly created department.
- ♦ **\$515,000 for Criminal Trials Services** (general fund) to hire additional staff to support the Governor's initiative to reduce crime and make communities safer. Programs needing additional resources include the Address Confidentiality Program, Special Prosecutor assignments, Unemployment Benefits fraud, Hate Crimes, and Cold Case homicide investigations and prosecutions.

## Attorney General

- ♦ **\$200,000 to support Child Support Enforcement** (\$67,900 general fund, \$132,100 state restricted funds) to prosecute those parents who can pay court-ordered child support but refuse to do so. The state has collected nearly \$240 million in child support since 2014.
  - ♦ **\$200,000 for Prisoner Reimbursement** (state restricted funds) to support the State Correctional Facility Reimbursement Act, which mandates that the state collect money from prisoners to help defray the costs of imprisonment.

## Department of Civil Rights

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Michigan Civil Rights Commission is composed of eight members who are appointed by the Governor. The commission oversees the Department of Civil Rights, whose mission is to prevent discrimination and enforce civil rights laws in the areas of education, employment, housing, law enforcement, public services, and public accommodations. The department carries out its mission through investigative services in response to complaints received by the department, as well as training and community-based partnership initiatives that promote voluntary compliance.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$32.3 million, of which \$29.4 million comes from the state's general fund.

---

### Highlights

The Governor's recommended budget enhances support for the following program:

- ♦ **\$5 million for Complaint Investigation and Enforcement** (general fund) to reduce the backlog of discrimination cases and complete investigations in a timely manner. Discrimination is prohibited against federal and state-protected classes (race, religion, color, national origin, age, sex, disability, genetic information, marital status, familial status, height, weight, and arrest record). Michigan residents may file discrimination claims regarding employment, education, housing, public accommodations, public services, and law enforcement. This support will enable the department to deploy three additional teams (29 additional investigators and managers) statewide to investigate claims and builds upon the \$5.7 million ongoing investment made in the current year.

## Community Colleges

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

Michigan's 28 public community colleges play a crucial role in shaping the postsecondary landscape, serving over 292,600 students annually. These institutions are dedicated to offering affordable education opportunities, particularly for adult learners. Aiming to propel workforce development, they contribute significantly to the state's Sixty by 30 goal, to raise the percentage of working-age adults holding skills certificates or degrees to 60% by 2030. The Governor's recommended budget for fiscal year 2025 and fiscal year 2026 includes total ongoing funding of \$465.9 million, all of which comes from the school aid fund.

### Highlights

The Governor's recommended budget includes:

- ♦ **\$8.9 million in additional ongoing funding for community college operations**, a 2.5% increase over fiscal year 2024 base operations. This increase is distributed through the existing performance funding formula. The Governor's recommended budget builds on the ongoing support for community colleges by sustaining higher investments in operations funding.

- ♦ **\$96.8 million for community college retirement obligations.** The Governor's recommended budget continues to provide state support for retirement contributions to the Michigan Public School Employees Retirement System (MPERS), providing fiscal stability to community colleges. This includes the continuation of the MPERS stabilization

## Community Colleges

payment, and a new payment to colleges to reduce the effective percent of payroll they must contribute to the system from 20.96% down to 20%.

- ♦ **\$1.2 million for the North American Indian Tuition Waiver**, to continue to fully fund program costs. This reinforces the Governor's commitment to accessible education by waving tuition costs for eligible Native Americans at Michigan community colleges.
- 

## Enhanced Investment in Community College Scholarships

In addition to the investments above, the Governor is also recommending the following in the State School Aid Act:

- ♦ **Creation of the Community College Guarantee** within the Michigan Achievement Scholarship. This will cover last dollar tuition costs for all Michigan high school graduates while they work toward an associate degree or skilled certificate at a Michigan community college. Additionally, the Community College Guarantee will provide \$1,000 to students with higher financial need on top of tuition and fees, to offset costs like food, housing, transportation, and child care. Once fully implemented, the Community College Guarantee is expected to save over 18,000 students up to \$4,820 on tuition each year.
- ♦ **\$62 million for Michigan Reconnect**, continuing to provide a tuition free pathway for adult learners 25+, with increased student support and interventions for non-traditional students.

**FY 2025 Community Colleges Funding**

# Department of Corrections

## Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of Corrections works to protect communities through the safe and secure operation of 26 state correctional facilities. It has long-provided evidence-based rehabilitative, vocational, and educational training and support to ensure that returning citizens possess the skills to reenter society, maintain employment, and reduce the risk of re-offense.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$2.1 billion, nearly all of which comes from the state's general fund. The Governor also recommends \$3.4 million in one-time funding in fiscal year 2025, all of which comes from restricted funds.

---

### Highlights

The Governor's recommended budget increases funding to meet the health and education needs of prisoners.

- ♦ **\$26.7 million for prisoner health care** (general fund) ensuring prisoners' access to health care services, including:
  - ♦ **\$16.2 million for Prison Health Care Services** (general fund) to reflect increasing costs for medical and pharmacy services.
  - ♦ **\$10.4 million for Clinical Nursing Services** (general fund) to reflect the cost differential for contracted nurses, ensuring staff are available to provide necessary care for prisoners.
- ♦ **\$6.3 million in existing funding is redirected to increase success through education, training, and reentry programs:**
  - ♦ **\$3.9 million for the Thumb Education Center** (\$483,600 general fund) to establish the Thumb Correctional Facility as the first educational prison facility at this scale in the country. The expansion of educational opportunities at the prison would allow nearly every prisoner at the facility the opportunity to participate in an educational program, including basic, vocational and postsecondary programs.
  - ♦ **\$1.5 million to provide Peer-Led Reentry programs** (general fund) through the department's longstanding regional offender success community administering agency structure. These programs will bring in formerly incarcerated individuals whose lived experiences will help parolees navigate the challenges of reentry.
  - ♦ **\$900,000 to expand pre-release parole planning services** (general fund). Through the In-Reach program, facility reentry specialists work collaboratively with parole and

## Corrections

prison staff, program counselors, and community providers to support eligible parolees with intensive parole planning services to ensure their success as returning citizens.

## Department of Education

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of Education (MDE) supports learning in Michigan for over 1.4 million students and over 145,000 educators across the public K-12 education system. The department's major responsibilities include administration of the school aid budget, school improvement and accountability, and educator preparation and certification.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$162.8 million, of which \$61.7 million comes from the state's general fund.

### Highlights

The Governor's recommended budget provides additional supports for the following areas:

- ♦ **\$750,000 for School Infrastructure and Consolidation Administration** (general fund) funding to coordinate and oversee the resources allocated for infrastructure and consolidation provisions in the school aid budget, which will involve cross-department collaboration.
- ♦ **\$520,000 for Grants Management and Administration** (general fund) to provide resources that support the timely and efficient administration of grant funds to districts and ensure all state and federal requirements are met.
- ♦ **\$500,000 for Summer EBT Food Benefits** (general fund) to continue administration of the summer food benefit program for school children that started during the pandemic. These administrative dollars will meet the state's match requirement for the federal grant program,

## Education

which is estimated to provide \$108 million annually in benefits for low-income children and their families to purchase food when school is not in session.

- ♦ **\$500,000 for Expand School Mental Health System Efforts** (general fund) to expand behavioral health supports and assistance to schools on mental health efforts, best practices, and programs.
  - ♦ **\$350,000 for Career and Technical Education Administration** (general fund) to support expanded programs statewide.
  - ♦ **\$100,000 for Poet Laureate** (general fund) to continue supporting poetry, the spoken word, and literary arts in a generation of young students.

## Department of Environment, Great Lakes, and Energy

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of Environment, Great Lakes, and Energy plays a pivotal role in supervising and safeguarding Michigan's land, water, and air resources. With an unwavering commitment to preservation, it ensures the sustainability of Michigan's environment, safeguards public health, and fosters economic prosperity. The department's steadfast focus on protecting Michigan's resources and the well-being of its residents, and its emphasis on ongoing environmental stewardship, is vital for the overall advancement of the state in a shifting natural and economic climate.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$1 billion, of which \$157.8 million comes from the state's general fund. The Governor also recommends \$90 million in one-time funding in fiscal year 2025, all of which comes from the general fund.

---

### Highlights

The Governor's recommended budget continues support for the following programs:

- ♦ **\$80 million for Contaminated Site Clean-Up, Brownfield Redevelopment, and Economic Siting** (state restricted funds) to increase the lifespan of Michigan landfills, reduce greenhouse gas emissions from solid waste, and drive economic growth by increasing the tipping fee to competitive parity with neighboring states.
- ♦ **\$40 million for Water Infrastructure Replacement and Improvements** (general fund) to provide loans and grants to local communities for water infrastructure. These projects will augment replacement and upgrade efforts funded through the Infrastructure Investment and Jobs Act to ensure that Michigan fully leverages every available federal dollar.
- ♦ **\$25 million for Electric Vehicle Charging Station Expansion** (general fund) to install charging stations at multi-family complexes and commercial parking lots. This investment will assist in Michigan's efforts to fully build out a charging network for the future green economy.
- ♦ **\$20 million for Transitioning Michigan's Fleets to the Green Economy** (general fund) to provide grants to municipalities, transit authorities, and key infrastructure hubs to replace medium and heavy-duty fleet vehicles with emission free alternatives such as battery EVs and hydrogen fuel based vehicles.
- ♦ **\$15.3 million for Green Infrastructure Projects** (general fund) to assist municipalities in mitigating the impacts from and adapting to climate change through the installation of stormwater diversion infrastructure that utilizes the restoration of natural site hydrology, implementation of ecological water absorption, and stormwater reuse.

- ♦ **\$4.4 million for Improving the Permitting Process** (general fund) to increase permitting staff capacity to enable front end application outreach to improve submissions and facilitate the permitting process for applicants. Additionally, this investment will provide for the ongoing digitization of permit records to enable quick and easy access to historical documents.
-

## **Executive Office**

### **Governor's Recommended Budget for Fiscal Years 2025 and 2026**

The Executive Office houses the Office of the Governor and provides funding to the Governor, Lieutenant Governor and executive staff. The office's primary role is to assist the Governor in supervising state agencies dedicated to serving the diverse needs of Michigan residents under her jurisdiction.

Funding also facilitates the Lieutenant Governor's duties in overseeing gubernatorial functions in the absence of the Governor. This includes presiding over the Senate, participating in the State Administrative Board, and representing the Governor at various local, state, and national meetings.

The Governor's recommended budget for fiscal years 2025 and 2026 recommends total ongoing funding of \$9.3 million, all general fund.

# Department of Health and Human Services

## Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of Health and Human Services (DHHS) provides opportunities, services, and programs to protect public health and promote a healthy, safe, and stable environment allowing Michigan residents to be self-sufficient. DHHS operates a network of local offices throughout the state and administers critical programs, including Medicaid, behavioral health services and psychiatric hospitals, public health programs, child welfare services, and public assistance.

The Governor's recommended budget for fiscal year 2025 includes total ongoing funding of \$37.6 billion, of which \$6.6 billion comes from the state general fund. The Governor also recommends \$112 million in one-time funding, of which \$77.6 million comes from the state's general fund.

---

### Highlights

The Executive Budget invests new resources into initiatives to increase financial supports to low-income families, creates new tools for the child welfare system to provide children necessary services without delay, enhances the behavioral health infrastructure funded in previous budgets with new coverage options for providers and patients, funds innovations in how Michigan's Medicaid program serves enrollees, supports and grows Michigan's health care workforce, increases support to department work to address violence, and funds capacity to address disparity in access to needed health services.

### Assistance to Low-Income Families

The Executive Budget includes a substantial increase in new state and federal funds for low-income households. These increases are prioritized to families with children, people experiencing homelessness, and for weatherizing homes. Proposed investments for fiscal year 2025 include:

- ♦ **\$108 million for summer food assistance** (federal). These funds will be used to extend Food Assistance Program support to schoolchildren during the summer months by providing \$120 in food assistance per child.
- ♦ **\$15 million to Michigan Energy Assistance Program (MEAP)**. Increases funding by 30% to support low-income households struggling to pay energy bills. This is the first increase in this program since 2012.
- ♦ **\$13.7 million to end Medicaid Birth Expense Recovery** (\$4.8 million general fund). The budget discontinues mandated payments made by fathers of Medicaid enrolled children born out-of-marriage, allowing these resources to stay with young families with infant children. Michigan is currently one of three U.S. states still operating a birth expense recovery program.
- ♦ **\$7.3 million for homeless services** (general fund, one-time) to support homeless families and families at risk of becoming homeless.

## Health and Human Services

- ♦ **\$4.5 million Emergency Housing Support for Families Engaged in Child Welfare** including eviction diversion, first month's rent and deposit, and utility arrears.
- ♦ **\$2 million to expand family shelters.** Currently family shelters are at capacity and turning away families. These shelters will provide families with a safe place to stay while they are experiencing homelessness.
- ♦ **\$750,000 for short term hoteling** to address the current backlog as communities build up permanent shelter options.
- ♦ **\$5 million for employment support services** (general fund, one-time). These funds will be available to low-income individuals to ensure access to reliable transportation, tools or supplies, and other supports to assist in accessing and maintaining employment.
- ♦ **\$5 million for weatherization** (general fund, one-time). These funds will be used to reduce energy costs of low-income households through projects to improve energy efficiency of their homes. The general fund dollars will be used along with federal weatherization funding to ensure the federal money is more effectively spent.

The Executive Budget also assumes a transformation in Michigan's Federal Temporary Assistance for Needy Families (TANF) funded programs. It shifts funds currently allocated to support administrative functions and broadly funded public programs to more targeted initiatives intended to assist those in poverty. Specific program changes funded in the budget recommendation include:

- ♦ **\$46 million for changes in Family Independence Program (FIP).** The changes below are the most substantially meaningful changes to the FIP program since 1990. They include:
  - ♦ **\$34.8 million** to increase the base monthly payment to families receiving cash assistance through FIP by 35%. If implemented, this would be the first meaningful increase in the base monthly FIP grant since 1990.
  - ♦ **\$10 million** to increase the young child support payments made to FIP enrolled children under the age of 6 from \$50 to \$150 per month.
  - ♦ **\$1.2 million** to increase the time limits a family is eligible for FIP from 48 months to 60 months.
- ♦ **\$30 million in additional funding for State Emergency Relief (SER).** These funds provide emergency cash assistance for relocation, homeownership, utilities and deposits, and home repairs. These supports provide one time assistance for low-income households that can normally make ends meet. It also allows DHHS to more aggressively intervene to assist homeowners in tax delinquency and increase the lifetime assistance limit to \$5,000 to help keep families and individuals housed.

- ♦ **\$24 million Prenatal and Infant Support Program.** Provides funding for programs that improve the economic stability of households with very young children.
- ♦ **\$3.5 million for homeless services.** Emergency Housing Support for Families Engaged in Child Welfare including eviction diversion, first month's rent and deposit, and utility arrears.

The proposed shift of TANF would represent the first meaningful growth in assistance payments to low-income families (using TANF funding) in several decades. The table below demonstrates the magnitude of this change.

## Child Welfare Capacity

The Executive Budget invests funding into new tools to better serve children in Michigan's foster care and juvenile justice systems. These new tools will be deployed by the department to ensure the safety and effectiveness of all placements in Michigan's child welfare system. Major investments include:

- ♦ **\$38 million to restructure rates ensuring needed beds in residential facilities are provided to children** (\$30.3 million general fund). This funding will support a restructuring of residential contracts to better meet demand. Rates paid to residential child placing agencies will be simplified and restructured to provide greater revenue certainty to contracted providers and ensure access to needed services for children.
- ♦ **\$11.9 million for Juvenile Justice investments** (\$5.7 million general fund ongoing, \$5 million general fund one-time) to implement recommendations from the Governor's Task Force on Juvenile Justice Reform and improve DHHS' residential juvenile justice programming and facilities. The investment funds new tools to improve pre-service screening, diversion services, and case reviews to reduce lengths of stay in secure

## Health and Human Services

settings. Additionally, this funding supports new programs and related infrastructure at DHHS-operated juvenile justice facilities.

- ♦ **\$10 million general fund toward exiting federal oversight of the child welfare system.** This investment will allow the department to implement steps to reach the identified Modified Implementation Sustainability and Exit Plan benchmarks through program and staffing support, including resources, training, and legal services to achieve stable, long-term care of children.
- ♦ **\$2 million for improvements in child welfare staff training** (general fund, one-time). Funds would support new foundational classroom and simulation training for state children's protective services, foster care, and juvenile justice staff.
- ♦ **\$1.5 million to increase the clothing and holiday allowances for children in foster care** (\$1.1 million general fund). This investment would be the first increase in state support to foster parents for clothing and holiday presents in over 20 years, increasing the clothing allowance by 40-50% (depending on the child's age) and tripling the holiday allowance.

### Behavioral Health Capacity Improvements

The Executive Budget continues to invest in supports and services to residents with behavioral health needs. It includes additional funding to increase access to behavioral health services through direct program capacity enhancements, a managed care rate increase for behavioral health services, incentives to build a pipeline of qualified providers, and ongoing resource support for current tools used to support people experiencing behavioral health crises. Major investments include:

- ♦ **\$193.3 million to expand Michigan's Certified Community Behavioral Health Clinics (CCBHC) demonstration program** (\$35.6 million general fund). Funds will be used to support new CCBHC sites and establish more sophisticated oversight and monitoring for the Medicaid CCBHC system.
- ♦ **\$36.1 million to increase rates for behavioral health services provided through Medicaid health plans** (\$10.2 million general fund). This proposal brings parity in reimbursement rates for behavioral health services paid through Medicaid health plan contracts to improve access to needed supports for Medicaid enrollees.
- ♦ **\$8.3 million to establish Medicaid reimbursement for peer provided substance use disorder services** (\$2.5 million general fund). Peer recovery specialists will be reimbursed for services provided in a hospital setting.
- ♦ **\$7.3 million for the Michigan Crisis and Access Line (MiCAL)** (\$8.3 million general fund) to ensure structural ongoing support for services currently provided to individuals experiencing behavioral health crises. Funding will ensure access to text and chat functionality, from a Michigan-based provider, 24 hours a day, seven days a week.

- ♦ **\$4 million to enhance gambling prevention and treatment services** (state restricted revenue). Funding will support residential gambling treatment, recovery support services, youth education and prevention services, research and evaluation, provider training, a media campaign, and the problem gambling hotline.

## Restructure Michigan Medicaid

The department is currently engaged in the MiHealthy Life procurement process to identify the health plans that will partner in delivering Medicaid and Healthy Michigan Plan support to Michigan's Medicaid enrollees. These contract changes will:

- ♦ Double the size of the quality withhold and restructure related success criteria to more effectively reward health plans that exhibit the best outcomes as defined by the state.
- ♦ Require financial reinvestment of health plan profits into partnerships with community organizations on efforts to address social determinants of health.

Alongside these innovations in health plan contracts, the Executive Budget funds initiatives that remove barriers and create innovative pathways for families and individuals to access services that will positively impact their daily lives. These include:

- ♦ **\$30.5 million for new pre-release Medicaid services to incarcerated individuals** (\$5.6 million general fund). These services will reduce reliance on emergency medical services and support proper transition of care for people previously in state prison, jail, and secure juvenile justice settings.
- ♦ **\$10 million for an “in-lieu-of-services” incentive pool** (\$3.5 million general fund) made available to Medicaid health plans that improve food security for their enrollees with dietary needs.
- ♦ **\$7 million to increase provider participation in the Vaccines for Children (VFC) program** (\$2.5 million general fund). Funds would support a 42% increase in the administrative rate paid to providers for childhood vaccination; the maximum allowable under federal law.
- ♦ **\$5 million to provide additional trainings and supports** (\$1.7 million general fund) to family and informal caregivers assisting individuals enrolled in Michigan's Home and Community-Based Services—MiChoice—waiver program.
- ♦ **\$1.8 million general fund to recognize elimination of monthly MiChild premiums** for low-income families with uninsured children under the age of 19.

## Supporting Michigan's Health Care Workforce

The Executive Budget directs additional funding toward efforts to grow Michigan's health care workforce and enhance the state's ability to recruit new talent to health care professions. New investments include:

## Health and Human Services

- ♦ **\$14 million in wage support for non-direct care nursing home staff** (general fund). This investment supports a \$0.85/hour wage increase.
- ♦ **\$3 million for behavioral health workforce supports** (one-time, federal fund) to be allocated to Michigan's public universities to fund scholarships and internship programs to attract and support people interested in training to become behavioral health providers.
- ♦ **\$10 million to launch a new nurse incentive program to recruit and retain staff** (one-time, general fund). This investment provides \$5 million to support nurses who work in state operated facilities and \$5 million to support nurses who work in non-state operated facilities.
- ♦ **\$1 million to establish the Home Health Care Public Authority** (one-time, general fund) that will be responsible for facilitating orientation and training for home care workers and connecting them with clients.

## Public Health and Safety

The fiscal year 2025 Executive Recommendation continues to identify opportunities for new, and augmented, investments to address public health and safety. Investments in this year's recommendation include:

- ♦ **\$6 million in health care support for first responders and public safety staff** (general fund, one-time).
  - ♦ **\$3.5 million for firefighters' health care program** (general fund). Funds support enhanced health screening services.
  - ♦ **\$2.5 million for access to mental health services** (general fund). Funding supports behavioral health resources for first responders and public safety staff.
- ♦ **\$5.5 million in support for Community Violence Intervention (CVI) services** (one-time, state-fiscal relief funds). Resources are allocated as such:
  - ♦ **\$5 million for grants to local CVI providers** (one-time, state-fiscal relief funds). Funds will continue to support direct CVI services in Michigan communities.
  - ♦ **\$500,000 for ongoing support to DHHS CVI capacity and grantmaking** (general fund). New general fund to continue building capacity in DHHS for ongoing support for CVI services.
- ♦ **\$5 million increase for smoking cessation and tobacco prevention programs** (general fund). This investment will allow the state to maintain and expand current efforts to reduce tobacco use among Michigan's adult and youth population.
- ♦ **\$4.3 million for one-time grants related to firearm injury prevention and technical assistance** (general fund). DHHS will partner with a public university for training and

technical assistance related to school violence prevention, and implementation of statutory requirements established through the Extreme Risk Protection Order legislation.

## Health Access and Equity

The Executive Budget devotes resources to improving access to health care services to all Michigan residents. Addressing barriers to preventive health care services, including social determinants of health, improves the lives of impacted residents and can mitigate future need for more intensive medical interventions. Specific investments to improve health access and equity include:

- ♦ **\$35 million to implement recommendations of the Racial Disparities Task Force** (\$10 million general fund ongoing, \$25 million state fiscal relief funds, one-time):
  - ♦ **\$13.5 million for local healthy community zones** (\$8.5 million one-time, federal fund). Funds will be used to expand comprehensive long-term strategies to address access to healthy foods, affordable housing, and safety networks.
  - ♦ **\$12 million in support to neighborhood health grant programs** (\$9.5 million one-time). Grant funding will support the operations of community-based health and mobile clinics located in areas with high social-vulnerability and disparity in health access and outcomes.
  - ♦ **\$6.5 million for mobile health clinics** (\$4 million one-time). Continued support for the operation of mobile health clinics to provide health services to communities with poor health access.
- ♦ **\$26.6 million to continue expansion of programs to support reproductive and maternal health** (\$23.7 million general fund). Grants included in this funding are:
  - ♦ **\$14.2 million for statewide family planning services** (one-time, general fund) to be allocated to local health departments and agencies to assist individuals and families in planning and spacing birth, preventing unintended pregnancy, and seeking preventive health screenings.
  - ♦ **\$5 million to Michigan Perinatal Quality Collaborative** (one-time general fund) focused on regional strategies to improve maternal and infant health outcomes.
  - ♦ **\$2.5 million to expand the number of CenteringPregnancy sites across the state** (one-time general fund) where expecting mothers can engage in group-based dialogue with peers and health care providers.
  - ♦ **\$4.9 million in continued supports for doula services** (\$2 million general fund). These would support:
    - ♦ **\$2 million for increases in Medicaid reimbursement for doula care** (\$545,100 general fund).

## Health and Human Services

- ♦ **\$2.9 million for doula training and continuing education supports** (\$1.4 million one-time general fund).
- ♦ **\$2 million in ongoing support to victims of sexual assault** (general fund). Funds will allow the state to maintain comprehensive sexual assault and treatment services at the level currently provided.
- ♦ **\$2.5 million to expand Michigan’s kindergarten oral health assessment program** (general fund) to ensure statewide support for statutory mandated dental health screenings for children entering kindergarten.

## Reductions

The recommended budget reduces funding for the following programs:

- ♦ **\$22.2 million related to statutory repeal of “Raise the Age” subsidies.** These funds have been redirected to new, targeted supports for Michigan’s child welfare system.
  - ♦ **\$10 million through increased Federal Title IV-E claiming.** Regulatory changes will allow more relative caregivers of foster children to become eligible for federal Title IV-E support, reducing state costs.
  - ♦ **\$3.5 million general fund through a new DHHS Office of Inspector General (OIG) program.** The budget funds new tools for the DHHS OIG to identify and address double billing.
  - ♦ **\$4.6 million general fund shift** through allocation of current Health and Safety Fund revenues to base Medicaid programming.

## Department of Insurance and Financial Services

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of Insurance and Financial Services (DIFS) ensures access to safe and secure insurance and financial services fundamental for the opportunity, security, and success of Michigan residents, while fostering economic growth and sustainability in both industries.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$77.5 million, all of which is from restricted and federal fund sources. The Governor also recommends \$250,000 in one-time funding in fiscal year 2025 from state restricted fund sources.

---

### Highlights

The Governor's recommended budget adds funding for the following key DIFS programs:

- ♦ **\$1.3 million to Increase Regulatory Capacity** (state restricted fund) by adding 7.0 positions within the department's insurance evaluation, and consumer services and protection programs.
  - ♦ **\$660,000 for Pharmacy Benefit Manager Licensure and Regulation** (state restricted fund) to fund the costs associated with licensing and regulating pharmacy benefit managers as required under Public Act 11 of 2022.
  - ♦ **\$250,000 for Insurance Complaints and Healthcare Appeals Campaign** (state restricted fund) to raise awareness on the right of Michigan residents to file insurance complaints and appeal health insurance denials through the department.
-

## Nearly 90% of DIFS Funding Directly Supports Insurance and Financial Regulation, and Consumer Protection

## Judiciary

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Judicial Branch includes the state Supreme Court, the Court of Appeals, as well as the State Appellate Defender's Office, and the Judicial Tenure Commission. The budget also includes support for local trial courts through caseload reimbursements, grants for problem solving courts and specialty programs, juror compensation, information technology, and judges' salaries.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$371.8 million, of which \$265 million comes from the state's general fund.

---

### Highlights

The Governor's recommended budget includes funding to maintain and expand key judiciary programs supporting local trial courts, improving service to the public, and ensuring fairness in the judicial process.

- ♦ **\$4.6 million to continue implementation of the statewide judicial case management system** (general fund) for additional personnel and operational costs as more trial courts migrate from a locally managed system to the state managed system.
  - ♦ **\$3.3 million for additional personnel for the State Appellate Defender's office** (general fund) to implement workload standards for attorney and non-attorney staff for the office in concert with similar workload standards for trial level public defenders through the Michigan Indigent Defense Commission.
  - ♦ **\$472,100 in additional funding for judges** (\$338,300 general fund) to implement the State Officers Compensation Commission recommendation to increase the salaries of Michigan Supreme Court justices and support the addition of new judgeships in Kent and Macomb counties.
  - ♦ **\$340,000 for mental health supports** (general fund) to implement the recommendations of the recent Task Force on Well-Being in the Law addressing mental health issues and substance use issues within the legal community and to establish a behavioral health administrator position to improve the courts' response to persons with mental health issues and substance use disorders.

## Department of Labor and Economic Opportunity

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of Labor and Economic Opportunity (LEO) coordinates economic, labor, housing and workforce development efforts across the state through the Michigan Strategic Fund, the Michigan State Housing Development Authority, the State Land Bank Authority, and other employment and workforce programs and commissions. LEO works to drive economic development; build vibrant communities; attract and retain talent; grow the state's population; protect health, safety, and economic security of workers; and create affordable housing.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$1.8 billion, of which \$228 million comes from the state's general fund. The Governor also recommends \$191 million in one-time funding in fiscal year 2025, of which \$131 million comes from the general fund.

### Governor Whitmer's Budget Recommendations Invest Over \$1 Billion for a Prosperous Economic Future for Michigan.

### Highlights

The Governor's recommended budget provides support for a wide range of programs that will help grow the state's population, boost the economy, train our workforce, and ensure an equitable future for existing and future Michigan residents. To catalyze the state's economy, Governor Whitmer invests in the following programs:

- ♦ **\$60 million for the Michigan Innovation Fund** (restricted funds) to support high-growth, scalable startups, and the innovation and entrepreneurship eco-system. Funds will be used for investments in innovative startups across the state through an evergreen structure that ensures returns support additional startups into the future. These efforts will diversify the economy, attract new entrepreneurs to the state, and allow our talent and promising startups to develop and grow here in Michigan.

## Labor and Economic Opportunity

- ♦ **\$25 million for the Build Ready Sites Program** (general fund) to identify and prepare sites in Michigan for future development or redevelopment, thereby creating a statewide inventory of development-ready sites to attract and promote investment in Michigan.
- ♦ **\$20 million for Business Attraction and Community Revitalization** (general fund) to stimulate job creation and private investment, revitalize and redevelop vital properties, and support small businesses that serve as the backbones of our communities. Combined with the \$100 million (\$40.7 million general fund) of ongoing funding, these investments will create jobs and develop high-quality places that attract residents and spur economic growth.
- ♦ **\$5 million for the Arts and Cultural Program** (general fund) to expand grants to arts and cultural institutions that support the economy and contribute to vibrant communities. This is in addition to the \$11.1 million (\$9.9 million general fund) ongoing funding provided for the program.
- ♦ **\$5 million for Community and Neighborhood Initiatives** (general fund) for a grant program that will provide resources to the organizations that serve our neighborhoods and benefit the community.
- ♦ **\$2.5 million for Rural Prosperity Grants** (general fund) that help enhance regional and statewide coordination of services and programming in rural communities and help develop the plans and partnerships needed for economic growth.

A strong and stable economy requires a strong workforce, and the Governor invests in programs that will ensure workers have the skills for in-demand jobs, and employers have the talent they need to grow and succeed. The fiscal year 2025 Executive Budget invests in the following workforce programs:

- ♦ **\$20 million for Going Pro** (general fund) to further expand employer-based training that results in industry recognized credentials and certificates. This investment is in addition to the \$54.8 million (\$45.2 million general fund) provided on an ongoing basis for the program.
- ♦ **\$20 million for Talent Solutions** (general fund) to address current and future workforce needs. These funds will be used strategically to provide specialized economic assistance to businesses that are locating or expanding in Michigan, as well as to develop customized solutions to fill identified talent gaps in key industries.
- ♦ **\$5.9 million for expanded Vocational Rehabilitation Services through Michigan Rehabilitation Services and the Bureau of Services for Blind Persons** (\$1.25 million general fund) to expand the vocational rehabilitation services that will increase employment for individuals with disabilities.
- ♦ **\$1 million for Focus: HOPE** (general fund) to support workforce development, youth development and community empowerment and advocacy programs.

Growing the state's population is a key factor in boosting the economy and building shared prosperity across the state. To work toward the Governor's population growth goals, the fiscal year 2025 Executive Budget includes the following:

- ♦ **\$20 million for Michigan Marketing Initiatives** (general fund) to build off the iconic Pure Michigan campaign with a focus on talent attraction, labor retention and relocating to Michigan, as well as broader population growth goals. This includes \$5 million in ongoing and \$15 million in one-time funding and is in addition to the existing \$15 million general fund provided for Pure Michigan to promote the state as a place to live, learn, build, work, play, and succeed.
- ♦ **\$8 million for New Michigander Immigration and Legal Services** (general fund) to expand and improve immigrant integration efforts in Michigan through grants for wraparound supports that will facilitate the success of newcomers. Services may include case management, transportation, legal services, language access supports, digital literacy, and learning.
- ♦ **\$4 million for Global Talent and Retention** (general fund) to improve the state's efforts around welcoming and integrating international talent to both grow Michigan's population and connect talent to the state's workforce needs.
- ♦ **\$4 million for the Michigan Growth Office** (general fund) to build on and expand the work of the Growing Michigan Together Council by identifying opportunities to remove barriers to population growth and support growth in communities across the state.
- ♦ **\$1 million for the Housing Readiness Incentive Grant Program** (general fund) in a fiscal year 2024 supplemental to augment the existing grants to local governments to support the costs associated with land use and zoning policy changes, master plan updates, and other actions that will increase housing supply and affordability.

Finally, to ensure both existing and future Michigan residents can envision a prosperous future in Michigan, the budget recommendation invests in programs intended to help close equity gaps. These programs include:

- ♦ **\$10 million for the Community and Worker Economic Transition Fund Pilot** (general fund) in a fiscal year 2024 supplemental to support communities, businesses and workers navigating the state's economic transition from internal combustion engines to electric vehicles, the shift to renewable energy, and the decarbonization of the manufacturing industry. The fiscal year 2025 budget also includes \$5 million for the Community and Worker Economic Transition Office (general fund) and a prorated amount in a fiscal year 2024 supplemental to develop the state's community and worker economic transition plan to guide the state forward and help connect communities and workers with the resources they need.
- ♦ **\$500,000 for Language Access** (general fund) for the Office of Global Michigan to provide technical assistance to state departments as they implement language access initiatives by providing materials in the languages spoken by Michigan residents.

## Labor and Economic Opportunity

In addition to these significant new investments, the Governor's budget recommendation also continues support for multiple investments initiated in prior years. These include:

- ♦ **\$500 million for the Strategic Outreach and Attraction Reserve Fund** (state restricted funds) to invest in Michigan's future and attract transformational projects that keep Michigan at the forefront of manufacturing.
  - ♦ **\$150 million for a Targeted Energy Investment** (general fund) in a fiscal year 2024 supplemental to further the state's investment in a carbon-free future. This funding will be used to repower a critical, carbon-free energy source and economic driver for the state.
  - ♦ **\$50 million for the Housing and Community Development Program** (restricted funds) to continue alleviating affordable housing needs across the state and revitalize downtown areas in Michigan. This funding will also be used to support new staff that will focus on local capacity building and reducing barriers to affordable housing creation.
  - ♦ **\$50 million for the Revitalization and Placemaking Program** (state restricted funds) for grants that will be used to rehabilitate vacant, underutilized, blighted, and historic structures and develop place-based infrastructure associated with traditional downtowns, social-zones, outdoor dining, and other public spaces.

## Legislature

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Michigan Constitution vests the state's lawmaking power in a two-house Legislature consisting of a 38-member Senate and a 110-member House of Representatives. The Legislature has the constitutional authority to enact laws that regulate state government and protect the interests of the people.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$221.9 million, of which \$216 million comes from the state's general fund.

---

### Highlights

The Governor's recommended budget provides a 5% increase and continues support for the following legislative entities:

- ♦ **\$146.9 million for the Senate and the House of Representatives** (\$145.4 million general fund), associated fiscal agencies, and supporting entities.
  - ♦ **\$26.4 million for the Legislative Council** (general fund) to support council operations which include bill drafting and research services for the Legislature. Included in this funding is \$3.4 million for the Independent Citizens Redistricting Commission, as required by the Michigan Constitution.
  - ♦ **\$21.4 million for the Office of Auditor General** (\$21.4 million general fund), with constitutional responsibility for financial and performance audits of all state branches, departments, offices, boards, authorities, and other institutions.
  - ♦ **\$16.7 million for Property Management** (general fund) to finance operations of the Binsfeld and Anderson office buildings.
  - ♦ **\$10.5 million for the State Capitol Historic Site** (\$6.1 million general fund) for the maintenance and restoration of the State Capitol building and grounds.

## Department of Licensing and Regulatory Affairs

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of Licensing and Regulatory Affairs (LARA) is the state's primary regulatory agency, providing oversight of health care, business, utilities, construction, cannabis, indigent criminal defense, liquor, and professional occupations.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$635.5 million, of which \$296.6 million comes from the state's general fund. The Governor also recommends \$250,000 in one-time funding in fiscal year 2025.

## Highlights

The Governor's recommended budget includes new initiatives and continues support for the following key LARA programs:

- ♦ **\$258.3 million for Michigan Indigent Defense Commission grants** (general fund and state restricted funds) for 120 local trial courts to continue the implementation of requirements for the effective and fair assistance of counsel for indigent criminal defendants across the state. This represents a \$37.4 million dollar increase over fiscal year 2024 to cover the costs associated with meeting existing minimum standards, as well as newly approved standards related to attorney caseloads and qualifications.
- ♦ **\$33.6 million for the Cannabis Regulatory Agency** (state restricted funds) to regulate the state's cannabis and hemp industries to ensure compliance with consumer health, safety, and welfare regulations. This includes a \$3.4 million increase and nine new positions for increased enforcement, licensing support and safety inspections, as well as

## Licensing and Regulatory Affairs

\$2 million for the Department of Attorney General to support the continued growth of attorney workloads related to the cannabis sector.

- ♦ Overall, excise tax collections from adult-use cannabis sales are forecast to result in the following fiscal year 2025 distributions: \$97.4 million to qualifying local counties and cities, \$113.6 million to the school aid fund for K-12 education, and \$113.6 million for road and bridge repair and maintenance.
  - ♦ **\$7 million additional for implementation of new clean energy legislation** (state restricted funds) enacted in November 2023. This includes \$5.8 million and 31 new positions for the Michigan Public Service Commission to carry out responsibilities contained in the 2023 energy legislation including new renewable energy plan reviews, expanded reviews in Integrated Resource Plan and Energy Waste Reduction filings, and renewable energy facility siting. It also reflects a \$1.3 million revenue increase for the Utility Consumer Participation Board to provide grants to groups advocating on behalf of residential customers.
  - ♦ **\$4.4 million additional for elevator inspections** (state restricted funds) to support 10 additional elevator inspectors to address the current inspection backlog. The increase reflects revenue from an elevator inspection fee increase enacted in June of 2023.
  - ♦ **\$1.9 million for nursing home surveys and investigations** (general fund) to protect residents and staff of Michigan nursing homes by adding an additional 12 positions to provide more timely and comprehensive oversight of nursing homes.
  - ♦ **\$1.1 million for implementation of the state's new medication aide program** (state restricted funds). This program was enacted in November of 2023 and allows for the training and registration of medication aides – a type of nurse aide who specializes in administering regularly scheduled medications to patients.
  - ♦ **\$800,000 to enhance Michigan's qualified interpreter program** (general fund) serving the state's Deaf, DeafBlind, and hard of hearing community. This increase will provide for three additional positions and updates to the state's testing methodology and qualified interpreter database.
  - ♦ **\$250,000 one-time for a follow-up study on implicit bias training requirements for health professionals** (state restricted funds). The Michigan Coronavirus Task Force on Racial Disparities recommended that the department conduct a study to gauge the effectiveness of implicit bias training requirements for health professionals added under Executive Directive 2020-07.

# Department of Lifelong Education, Advancement, and Potential

## Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of Lifelong Education, Advancement, and Potential (MiLEAP) was created through Executive Order 2023-6, to establish and implement a statewide vision for lifelong education from preschool to postsecondary attainment. MiLEAP is tasked with building strategic educational partnerships for student learning outside the classroom and expanding equitable access to affordable programs in early learning and higher education. MiLEAP centralizes the administration of pre-kindergarten and childcare, as well as student financial aid in higher education by combining offices from the Department of Education, Department of Licensing and Regulatory Affairs, Department of Labor and Economic Opportunity, and Department of Treasury into three offices: Office of Early Childhood Education, Office of Higher Education, and Office of Educational Partnerships.

The Governor's recommended budget for fiscal year 2025 includes \$577 million, of which \$160.9 million comes from the state's general fund. The recommended budget transfers all designated employees to MiLEAP along with an annualized amount of administrative support funding.

## Highlights

The Governor's recommended budget provides support for the following key MiLEAP programs:

- ♦ **\$60 million for Child Care Benefits for Child Care Workers Pilot** (general fund) providing financial assistance to child care workers to help offset the cost of child care for their own children, which is a real obstacle for some to enter the workforce. This investment is intended to bolster the child care workforce, where there is shortage statewide.
  - ♦ **\$37.9 million for Child Care Rates** (\$19 million general fund) providing for an increase of 10% in rates paid to child care providers to continue support for child care businesses, ensuring enough supply for Michigan families.
  - ♦ **\$8.5 million for Foster Youth Child Care Rates** (federal funds) to increase the rates paid to child care providers for youth who are in foster care by 30%. This will expand foster care parents' options for child care, removing a barrier that may prevent some from becoming a foster parent.
  - ♦ **\$4.8 million for Improving the Timeliness of Child Care Facility Inspections** (federal funds) will increase the number of staff who inspect child care facilities. These new staff will expand the state's capacity to ensure that Michigan's children are cared for in safe spaces.
  - ♦ **\$4 million for Family Child Care Networks** (federal funds) to continue supports that began with COVID-19 federal stimulus dollars. These networks provide vital supports to home-based providers.
  - ♦ **\$500,000 for Drinking Water Quality at Child Care Centers** (general fund) to provide technical assistance and supplies intended to ensure water is safe to drink in the state's child care centers.
  - ♦ **\$366,500 for Out of School Time Administration** (general fund) to provide support for the before and after school programs funded in the state school aid budget, which provide expanded learning opportunities to Michigan students.
  - ♦ **\$176,500 for Tri-share Administration** (general fund) for one staff to administer the program that builds partnerships between families, businesses, and the state to provide child care.

## Department of Military and Veterans Affairs

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of Military and Veterans Affairs provides resources and training for Army and Air National Guard forces in support of domestic and warfighting operations. The Michigan Veterans Affairs Agency provides support to more than 530,000 veterans in the state, ensuring their employment, education, health care, and quality of life needs are met following their military service. Through its three homes, the Michigan Veterans' Facility Authority provides quality, long-term care for veterans and eligible family members.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$255.6 million, of which \$98.1 million comes from the state's general fund. The Governor also recommends \$11.5 million in one-time funding in fiscal year 2025, all of which comes from the general fund.

---

### Highlights

The Governor's recommended builds off historic investments in prior years and continues support for key departmental programs:

- ♦ **\$104.2 million for the Michigan Veterans' Facility Authority** (\$47.5 million general fund), including an additional \$17.3 million (\$11.1 million general fund) to further realign federal and state resources based on the current operating costs of the newer veterans' facilities.
  - ♦ **\$85.9 million for Michigan National Guard operations** (\$20 million general fund) ensuring a trained and combat-capable force is ready to meet the Guard's state and federal missions.
  - ♦ **\$10 million for Selfridge Air National Guard Base** (general fund) for continuing capital improvements at the base.
  - ♦ **\$21.6 million for the Michigan Veterans Affairs Agency** (\$17.8 million general fund) to help connect veterans with employment, housing, education, health care, and emergency assistance. This includes \$8.5 million in grants to veterans' service organizations and counties to assist veterans.

## Department of Natural Resources

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of Natural Resources is committed to preserving and protecting Michigan's historic, cultural, and natural resources for the well-being of current and future residents. Fostering recreational opportunities and conserving the environment, the department ensures accessibility to nature while sustaining ecological balance. Its responses to climate threats, natural disasters, and invasive species demonstrate its dedication to safeguarding Michigan's invaluable assets.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$542.8 million, of which \$67.8 million comes from the state's general fund.

---

### Highlights

The Governor's recommended budget continues support for the following key DNR programs:

- ♦ **\$17.2 million for State Parks Improvements** (state restricted) to reduce the backlog of maintenance projects and improve visitor experiences when exploring Michigan's natural resources. Michigan has one of the nation's largest state park systems. The recommended budget increases access to the state parks by making the recreation passport an opt-out process and providing free access for all Michigan veterans.
  - ♦ **\$878,300 for Equipment Modernization** (general fund) to enable the department to update and replace critical communications gear through the implementation of a lifecycle replacement plan.
  - ♦ **\$700,000 for Records Management System Replacement** (general fund) to provide for the consolidation and improvement of the Law Enforcement Division's incident and records management system through the implementation of a new software solution.
  - ♦ **\$151,100 for Land and Water Conservation Fund Stewardship** (\$76,100 general fund) to help prevent and resolve conversions so municipalities and counties can access new funding opportunities for public outdoor recreation investments, and to improve relationships with local entities to increase the conservation of vital natural resources.

## School Aid

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The School Aid budget provides operational support for the public education system to ensure the state's nearly 1.4 million students have access to high-quality learning opportunities and academic supports. The budget continues to provide equitable funding that connects the most resources to students with the most needs. In addition, the budget continues significant investments in pre-K education, early literacy, mental health and student safety, career readiness, and the educator workforce.

The Governor's recommended budget includes total funding of \$20.6 billion in fiscal year 2025 (\$19.7 billion ongoing and \$953 million one-time), with \$17.9 billion from the School Aid Fund and \$51.6 million from the state's general fund.

#### Recommended total funding increase of \$1.9 billion supports all aspects of the Pre-K to 12 System

## Highlights

### Supports for School Operations

- ♦ **\$370 million to support school operations through a 2.5% increase to the per-pupil foundation allowance and related weighted funding elements.** This increase will guarantee districts receive at least \$9,894 per pupil with higher amounts for students with higher educational needs and costs. Funding for 100% online cyber schools is recommended to be funded at 20% less, \$7,879 per pupil, in recognition of lower operating costs (a reduction of \$27 million). Over \$10.5 billion is appropriated to support K-12 operations through the foundation allowance.

## School Aid

- ♦ **\$125 million to provide an additional 5% increase to other elements of the weighted funding model**, which provides additional dollars for students with higher educational costs. This includes funding for English language learners, career and technical education students, and students in rural school districts. This investment also includes a new program that provides \$90 million to school districts to support the individualized needs of their highest poverty students. Nearly \$1.2 billion is appropriated to support the weighted funded model, without including the additional supports for special education pupils.
- ♦ **\$127 million to continue expanded support for special education students**. The budget provides ongoing funding (\$77 million, total of \$514.4 million) to ensure a full foundation allowance in addition to required cost reimbursement payments for each special education student. The budget also includes an additional \$50 million (total of \$124.2 million) to equalize the local revenue generating capacity for special education services. Total state and federal funding for special education exceeds \$2.2 billion.
- ♦ **\$125 million to continue reimbursements to districts for transportation costs**. This investment will continue to help ease the disproportionate financial impact faced by some districts to transport students, increasing dollars available for the classroom.
- ♦ **\$71 million to continue addressing the challenges faced by districts with declining enrollment**. These dollars help reduce financial uncertainty for school district finances which helps districts maintain stable learning environments for students.
- ♦ **\$1.7 billion for state contributions toward the Michigan Public Employees' Retirement System**. This amount recognizes a savings of approximately \$670 million compared to prior estimates due to the early payoff of certain liabilities. These savings have been reinvested in the public education system. Additionally, the budget continues to provide payments to districts to cap school district contributions at a predictable 20.96% of payroll and includes an additional offset payment to reduce the effective district share to 20% of payroll.
- ♦ **\$45 million for career and technical education (CTE)**. This includes a continuation of supports for CTE equipment purchases, reimbursements for added costs of running vocational education programs, and a new pilot initiative to connect high schoolers with key local industries to support pathways to certifications, credentials, and careers. Total state support for CTE programs exceeds \$110 million.

## Supporting Student Needs

- ♦ **\$300 million for student mental health and school safety needs**. The budget supports districts in managing individualized mental health needs and enhancing the safety of school buildings. Of this amount, \$150 million is recommended as ongoing funding to provide districts with a stable financial source to support this important work.
- ♦ **\$251.2 million to support student literacy supports**. This includes a new program that funds expert-led evaluation of available literacy curriculum, supports for districts that adopt

and implement top-rated curriculum, and awards payments to districts that engage in innovative and effective literacy interventions. The budget also continues support for literacy coaches, professional development, and school-based tutors.

- ♦ **\$200 million to continue to help students thrive by providing universally-free breakfast and lunch.** The Governor’s budget addresses student nutritional needs by ensuring that every student who wants a healthy breakfast or lunch can receive one at no cost.
- ♦ **\$200 million to help students with unfinished learning.** This includes a continuation of the effective academic intervention programs through the MI Kids Back on Track program as well as a continuation of expanding learning opportunities through before and after school programs.
- ♦ **\$175 million in recognition of the crucial role high-quality teachers play in the success of their students.** This includes continuation of the MI Future Educator Program, which provides a tuition-free avenue for college students to become certified teachers and stipend payments to student teachers. It also maintains funding to retain and develop existing teachers through mentorship programs and upskill people currently working in schools to becoming certified teachers.
- ♦ **\$40 million to encourage student completion of the Free Application for Federal Student Aid (FAFSA).** This funding continues a fiscal year 2024 program that encourages districts and students to increase the percentage of high school seniors who complete the FAFSA, which will open access to financial aid, higher education, and career opportunities as part of the Governor’s Sixty by 30 initiative – which set the goal of having 60% of Michiganders holding a degree or certification by 2030.

## Early Childhood Education

- ♦ **\$159.5 million for continued expansions toward delivering high-quality, universal early childhood education opportunities,** which are one of the best indicators of future academic success. The budget recommends expanding access to the Great Start Readiness Program (GSRP) by removing income requirements. It includes \$63.5 million to serve an estimated 6,800 children and \$35 million to open new classrooms in underserved areas. Additionally, to ensure children can get to these facilities, the budget continues higher levels of funding for student transportation costs. Total funding for the GSRP program is \$650 million.

## Department of State

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

Through its branch offices, online services, renewal by mail and self-service transactions, the Department of State administers Michigan's motor vehicle programs across the state. Key services include vehicle registration and titling, as well as operator licensing. The department's other critical functions include the supervision of statewide elections and the administration of state election laws.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$291.8 million, of which \$13.4 million comes from the state's general fund.

---

### Highlights

The Governor's recommended budget includes continued support and augmentation in key areas, including the following:

- ♦ **\$18.8 million to Sustain Early Voting Rights** (state restricted funds) by continuing existing support and ensuring that Michigan residents have at least nine days of early voting in every statewide or federal election, as well as secure access to conveniently located ballot drop-box sites and prepaid postage if they decide to vote by absentee ballot.
  - ♦ **\$5.7 million increase for Election Security** (federal funds) included in a 2024 fiscal year supplemental to strengthen voting systems and equipment, improve testing procedures, and provide for greater dissemination and distribution of information to protect the integrity of state and local elections.
  - ♦ **\$5.3 million increase for Key Staffing Needs** (state restricted funds) that support branch offices, election services, legal services and other department-wide administration functions.
  - ♦ **\$1.1 million added to Fulfill Financial Disclosure Reporting Requirements** (general fund) of public officials and candidates in accordance with recently enacted legislation through the Public Officers Financial Disclosure Act (Public Act 281 of 2023) and the Candidate for Office Financial Disclosure Act (Public Act 282 of 2023) to bring greater transparency and accountability to elected officials.
  - ♦ **\$296,000 added for Automatic Voter Registration Process Enhancements** (general fund) to support changes made to election laws (Public Acts 260-262 and 268 of 2023) that expand voter registration outreach and access measures to make voting processes easier and more inclusive when residents interact with state agencies and services.

## Department of State Police

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of State Police is a central law enforcement and public safety agency that provides services in partnership with local law enforcement agencies across the state. As a comprehensive law enforcement agency, the department provides primary law enforcement, investigative resources, forensic science services, and emergency and disaster support, contributing to the safety of Michigan's residents.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$928.2 million, of which \$622 million comes from the state's general fund. The Governor also recommends \$5 million in one-time funding in fiscal year 2025, all of which comes from the general fund.

### Michigan State Police are a Full Service, Statewide Law Enforcement Department

### Highlights

The Governor's recommended budget continues support for public safety:

- ♦ **\$5.5 million to support 145th Trooper Recruit School** (general fund) to recognize full year salary and equipment costs for the 50 troopers anticipated to graduate in June 2024. Additionally, the budget maintains attrition savings that will allow the department to hire and train 120 new troopers from existing resources while continuing to increase diversity and make the department more reflective of the communities it serves.
- ♦ **\$5 million to establish Training, Recruitment and Retention Grants** (general fund) to support local law enforcement agencies. This investment will reduce violent crime by helping to ensure cities have the necessary resources to hire and retain police officers.

## State Police

- ♦ **\$1.4 million to protect the State Capitol** (general fund) by increasing the department's capacity to protect visitors from unauthorized weapons inside of the State Capitol Building and Heritage Hall.
- 

## Fiscal Year 2024 Supplemental

- ♦ **To best ensure disaster readiness**, the Governor's budget includes a fiscal year 2024 supplemental request to deposit \$10 million general fund into the Disaster and Emergency Contingency Fund. The Disaster and Emergency Contingency Fund supports immediate response and recovery activities in the event of a disaster or emergency.
- ♦ **\$500,000 to establish a hazard mitigation assistance program for local governments** (general fund). This investment serves as the state's contribution toward establishing a federally funded revolving loan fund to help local governments implement projects that reduce the impact of future disasters on communities.

# Department of Technology, Management and Budget

## Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of Technology, Management and Budget supports the business operations of state agencies through a variety of centralized services, such as information technology, contracting and procurement, budget and financial management, construction and building management, space planning and leasing, motor vehicle fleet operations, and oversight of the state retirement systems. The department also includes several autonomous agencies, including the Office of the Child Advocate, Michigan Civil Service Commission, Office of the State Employer, and the State Budget Office.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$1.8 billion, of which \$523.6 million comes from the state's general fund. The Governor also recommends \$76.8 million in one-time funding in fiscal year 2025, all of which comes from the general fund.

---

### Highlights

The Governor's recommended budget for the department includes several areas of critical investment, including ongoing public safety communication system support, strategic prioritization of funding for information technology systems, the creation of a new self-sustaining property insurance fund that will generate cost savings, and a deposit into the Make it in Michigan Competitiveness Fund. More specifically, new and increased investments include the following:

- ♦ **\$35 million for the Information Technology Investment Fund (ITIF)** (general fund) will continue to support new information technology projects that provide for the modernization of legacy information technology systems and solutions in areas such as educator certification and personnel, vocational rehabilitation services, payment and financial reporting of Michigan transportation fund revenues, and rail project management and coordination. A project to develop the strategy, platforms and tools for the introduction of artificial intelligence is also included that has the potential to improve service delivery and transform the provision of government services.
- ♦ **\$31.5 million to Establish a State Employee Dependent Care Flexible Spending Account Match** (general fund) through a dollar-for-dollar match (up to \$2,500) for eligible dependent care expenses through flexible spending accounts. This match benefit will bolster talent recruitment and retention efforts and remove barriers of employment to the state workforce by addressing the care needs of employee families.
- ♦ **\$25 million for the Make it in Michigan Competitiveness Fund** (general fund) to augment previous strategic investments that benefit Michigan by leveraging funding opportunities that were included in federal legislation, such as the Bipartisan Infrastructure Law (BIL), the CHIPS and Science Act (CHIPS), and the Inflation Reduction Act (IRA).

- ♦ **\$10 million for the Creation of a State Property Self-Insurance Fund** (general fund) to counter rising insurance market uncertainties and expand coverage to more state-owned facilities. This new fund will be self-sustaining with a one-time infusion of resources and will be the first source to draw from for applicable property or content damage claims. As a strategic reserve, the assets in this new fund will serve to mitigate prospective high-cost premiums and claims, and avoid unexpected negative budget impacts.
- ♦ **\$10 million for Michigan's Public Safety Communications System (MPSCS)** (general fund) to provide for ongoing lifecycle upgrades to support system equipment, security, and maintenance. The MPSCS provides 24/7/365 critical emergency communication support to over 2,200 public safety agencies through a statewide 800/700Mhz digital trunked radio communication network.

### The Majority of Michigan's 83 Counties (92%) Are Now Fully Integrated With Michigan's Public Safety Communications System

- ♦ **\$8 million for State Facility Maintenance** (general fund) to support special maintenance and improvements to state facilities, which includes a portfolio of nearly 800 diverse building complexes, more than 5,000 individual structures, and over 41.5 million square feet of building space throughout the state.
- ♦ **\$2.4 million for Enterprise Language Accessibility** (general fund) to transform the Michigan.gov user interface to enable the delivery of content in multiple languages, thereby reducing language access barriers for state services. With a quarter of Michiganders needing translation services, this new user-centered designed chatbot feature will make interacting with the state more efficient and inclusive. A total of \$820,000 is included from the ITIF for implementation.
- ♦ **\$2 million for State Fleet Electric Vehicle (EV) Transition** (general fund) to expand the incorporation of EVs within vehicle and travel services, as well as motor pool operations by bringing total transitional support to \$3 million. Consistent with Executive Directive 2023-5, which calls for the transition of the state fleet to zero-emission vehicles by 2040, this

funding will also support the department's efforts to reduce the carbon footprint of state government and to save on energy costs.

- ♦ **\$1.6 million to Improve Customer Services Within the Office of Retirement Services (ORS)** (state restricted funds) by reducing wait times, enhancing engagement and outreach for retirement planning and preparedness, and providing increased assistance for employers. The ORS serves as the fiduciary of roughly \$108.8 billion in net assets for five Retirement Systems that serve over 598,000 customers—this represents nearly 1 out of every 13 Michigan adults and 1 out of every 8 Michigan households.
- ♦ **\$251,000 for State-Owned and Managed Buildings** (general fund) to make automated external defibrillators (AED) devices accessible to all workers, customers, and visitors within state owned buildings to ensure that these critical life saving devices are available if an individual experiences cardiac arrest or a related medical emergency.

### Roughly 2/3 of the DTMB Budget Supports Central Services to Agencies

# Department of Transportation

## Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of Transportation provides for the efficient and effective movement of people and goods through support for the state's network of roads and bridges, public transportation systems, rail, and aviation programs.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$6.6 billion, none of which comes from the state's general fund. The Governor also recommends \$186 million in one-time funding in fiscal year 2025, \$185 million of which comes from the general fund.

---

### Highlights

For fiscal year 2025, the Governor's recommended budget for transportation includes critical funding increases across all major modes of transportation:

- ◆ **\$397.6 million increase for Michigan roads and bridges**, including:
  - ◆ **\$247.6 million to support revenue increases for state and local roads, highways, and bridges** (federal and state restricted funds). This reflects an additional \$102.7 million of federal funding, with the remaining \$144.9 million attributable to net increases in baseline state restricted revenues. Cities, villages, and county road commissions will receive \$127.2 million of additional road and bridge construction funds, with a \$123.4 million increase for state-owned roads.
  - ◆ **\$150 million for road and bridge projects** (general fund). An estimated \$95 million will be used to ensure that Michigan fully matches all federal highway aid made available under the Infrastructure Investment and Jobs Act of 2021. The remaining \$55 million will support local bridge and culvert projects across the state.
- ◆ **\$74.8 million of additional ongoing support for Transit and Rail Programs** (federal and state restricted funds). This reflects \$38.8 million of federal funding and includes \$22.4 million for anticipated federal transit capital grants and \$15.1 million for marine passenger services. The remaining \$36 million is attributable to net increases in baseline state restricted revenues and supports \$14.5 million to rail operations and infrastructure and \$14.5 million for transit capital matching funds, as well as a \$5 million increase in operating support to local transit agencies.
- ◆ **\$30 million for Transit Innovation Grants** (general fund) to support technical and other grant assistance for local transit agencies to spur innovation to connect Michiganders with new public transportation options that link communities.
- ◆ **\$24 million for capital improvements at Michigan airports** (federal and state restricted funds). This funding reflects \$20 million of additional federal authorization, as well as a \$1.5

## Transportation

million increase in baseline state restricted revenues. In addition, Michigan airports will benefit from an additional \$2.5 million of state funding from a recommended increase to the state's aircraft registration fee (last increased in 1988).

- ♦ **\$5 million to continue the MiContracting program** (general fund) to enhance participation of socially or economically disadvantaged contractors and suppliers in helping to deliver the state's transportation programs.
  - ♦ **\$7.5 million total to implement two information technology systems** (general fund) within the department. Funding for both projects is included in the Information Technology Investment Fund in the DTMB budget.
  - ♦ **\$6.5 million to modernize the information technology system that distributes Michigan Transportation Fund revenues** monthly to all 614 local road agencies. These agencies use these revenues to fund their local road and bridge construction programs and provide improved integration with Transportation Asset Management Council technologies.
  - ♦ **\$1 million to replace and upgrade the Rail Project Management System** that coordinates the financial and project management components of rail grade crossing improvements performed by the department.
-

## Department of Treasury

### Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Department of Treasury administers the state's tax system, invests state funds (including postsecondary savings funds), safeguards the credit rating of the state and local governments, forecasts economic activity and revenue, enforces property tax laws, and audits county and municipal financial records. Treasury also houses the Michigan Lottery which generates revenue for the School Aid Fund, and the Michigan Gaming Control Board which provides for regulation of casinos, sports betting, and internet gaming operations.

The Governor's recommended budget for fiscal years 2025 and 2026 includes total ongoing funding of \$901.7 million, of which \$281.4 million is from the state's general fund. The Governor also recommends \$31 million general fund in one-time funding in fiscal year 2025.

### Over 41% of Treasury Operations Supports Grants and Investments to Local Governments and Residents

### Highlights

The Governor's recommended budget includes support for the following new or increased Treasury programs:

- ♦ **\$25 million to support a one-time Vehicle Rebate Program** (general fund). This program will provide point-of-sale, scaled rebates on new vehicle purchases and includes additional incentives for buying electric and plug-in hybrid vehicles and those assembled in unionized facilities. Rebates range from \$2,500.00 to \$1,000.00 per vehicle on a first come, first serve basis.

Vehicle/Facility Type	Rebate Amount
Electric/Union made	\$ 2,500
Electric/Non-union made	\$ 2,000
Non-electric/Union made	\$ 1,500
Non-electric/Non-union made	\$ 1,000

- ♦ **\$3 million for the Michigan Achieving a Better Life Experience (MiABLE) program** (general fund) that allows disabled individuals to save money on certain expenses without impacting their eligibility for other benefits. This funding will be used to promote and educate Michiganders on the availability of this program and its impending federal expansion that will increase program eligibility for 500,000 additional residents.
- ♦ **\$3 million for a new Secure Retirement Program** (general fund) to create a state-managed retirement plan marketplace for small businesses with less than 100 employees to participate and provide their employees with optional retirement savings plans.
- ♦ **\$800,000 for Tax Processing Operations** (state restricted funds) to increase the efficiency of collections and improve response times and the communication between Treasury and the state's taxpayers.
- ♦ **\$4 million increase in available funding for the Compulsive Gaming Prevention Fund** (state restricted funds) and its associated programs within the Department of Health and Human Services. Increased allocations of proceeds from internet gaming, sports betting and lottery funds will enhance the 24/7 Gambling Disorder Helpline and existing treatment options to assist those suffering with gambling addiction and related problems.
- ♦ **\$1.9 million for Internet Gaming and Sports Betting Regulation** (state restricted funds). The growth of online gaming and sports betting in Michigan has increased the demand for gaming regulations and licensing operations, and these funds will expand the agency's regulatory capacity and enhance protections against illegal activity.
- ♦ **\$1.1 million to improve the iLottery Website and Mobile Application** (state restricted funds) and enhance the overall user experience with the Michigan Lottery.

# Department of Treasury – Revenue Sharing

## Governor’s Recommended Budget for Fiscal Years 2025 and 2026

Michigan’s revenue sharing program distributes sales tax revenues collected by the state to local units of government, allowing communities to determine how best to fund local services. A constitutionally dedicated portion of sales tax revenue is distributed to cities, villages, and townships on a per capita basis; the remainder is subject to annual appropriation.

The Governor’s recommended budget provides \$1.7 billion in restricted revenues, which includes \$1.1 billion for constitutionally required revenue sharing payments and \$604.7 million for all statutory revenue sharing payments.

---

### Highlights

The Governor’s recommended budget continues support for the following key revenue sharing programs:

- ◆ **\$1.1 billion in estimated Constitutional Revenue Sharing** (sales tax revenue) payments made only to cities, villages, and townships (CVTs), these payments constitute a significant portion of many municipalities’ local budgets. This represents a \$5.4 million increase over the fiscal year 2024 enacted appropriation.
- ◆ **\$55 million total increase in Statutory Revenue Sharing** (sales tax revenue) payments, an overall 10% increase compared to enacted fiscal year 2024 ongoing statutory appropriations. This total increase represents the following:
  - ◆ A 5% ongoing increase in general statutory revenue sharing compared to enacted fiscal year 2024 ongoing statutory appropriations.
  - ◆ A 3% one-time payment for local units that have fully obligated their local fiscal recovery funds by Oct.1, 2024, compared to enacted fiscal year 2024 ongoing statutory appropriations.
  - ◆ A 2% one-time payment specifically designated for local public safety initiatives, compared to enacted fiscal year 2024 ongoing statutory appropriations. These initiatives may include public safety employee recruitment, retention, and training, as well as public safety equipment and infrastructure improvements.
- ◆ **City, Village, and Township Revenue Sharing total increase is \$29.4 million (\$14.7 million related to 5% ongoing, \$8.8 million related to the one-time local fiscal recovery fund incentive, and \$5.9 million one-time related to public safety).** Total fiscal year 2025 statutory payments for CVTs are recommended at \$322.9 million.
- ◆ **County Revenue Sharing and the County Incentive Program total increase is \$25.6 million (\$12.8 million related to 5% ongoing, \$7.7 million related to the one-time local**

**fiscal recovery fund incentive, and \$5.1 million one-time related to public safety).**  
 Total fiscal year 2025 statutory payments for counties are recommended at \$281.8 million.

# Universities

## Governor's Recommended Budget for Fiscal Years 2025 and 2026

The Universities and Financial Aid budget provides operating support to Michigan's 15 public universities as well as funding for student financial aid programs. Public universities play a pivotal role in advancing education opportunities for students and regional workforce development. Public universities are critically important in realizing the state's Sixty by 30 goal to increase the number of working-age adults with a skills certificate or degree to 60% by 2030. Over 255,000 students were enrolled in the state's public universities last year.

The Governor's recommended budget for fiscal year 2025 includes total ongoing funding of \$2.3 billion, of which \$1.8 billion comes from the state's general fund and \$545.5 million comes from the School Aid Fund. Within this allocation, an impactful \$542.7 million is dedicated to student financial aid, all drawn from the state's general fund.

### Highlights

The Governor's recommended budget includes:

- ♦ **\$42.5 million in additional ongoing funding for university operations**, a 2.5% increase over fiscal year 2024 base operations. This increase is distributed across-the-board. This investment also includes a 2.5% increase to MSU AgBioResearch and MSU Extension. The Governor's recommended budget continues to build on the ongoing support for public universities by maintaining higher education operations payments. This budget recommendation recognizes the valuable role universities play in our state and the crucial role these institutions play in developing the workforce of the state's next generation.

### University Operations since 2018

## Universities and Financial Aid

- ♦ **\$12.8 million for the North American Indian Tuition Waiver**, to continue to fully fund program cost. This reinforces the Governor's commitment to accessible education by waiving tuition costs for eligible Native Americans at Michigan public universities.
- 

### Sustainable Investments in College Scholarships

In addition to the investments above, the Governor's recommended budget includes multiple investments in financial aid to help make college more affordable:

- ♦ **\$30 million increased deposit into the Postsecondary Scholarship Fund**, bringing the total deposit to \$330 million. This investment increases funding for the Michigan Achievement Scholarship, the state's flagship scholarship program. The Governor's recommended budget showcases a commitment to long-term investment in student financial aid and lowering costs for postsecondary attainment. The recommended budget creates the Community College Guarantee within the Michigan Achievement Scholarship. This guarantee ensures paid tuition at a Michigan community college toward an associate degree for future Michigan high school graduates.
- ♦ **\$20 million increase in the Tuition Incentive Program**, bringing the total to \$93.8 million ongoing. The Tuition Incentive Program provides tuition support to lower-income students in Michigan's community colleges, public universities, and private universities. The Governor's recommended budget provides increased funding to support student participation rates returning to pre-pandemic levels.
- ♦ **\$127.8 million general fund investment to fully replace all federal Temporary Assistance to Needy Families (TANF) funds in college scholarships**. This strategic fund shift frees up federal funding from the Tuition Incentive Program, Michigan Competitive Scholarship, and Michigan Tuition Grant, and allows those dollars to instead be targeted toward the state's higher financial need populations where they are most impactful. It also ensures a more secure funding source for financial aid programs going forward and streamlines the state's scholarship landscape making it simpler for students and their families to navigate.

FY 2025 Public University Operations (\$ in Thousands)

# Consensus Economic Outlook

The January 2024 Consensus Revenue Estimating Conference (CREC) updated the economic and revenue outlook for 2024, 2025, and 2026. The principals of the conference, the State Treasurer and the Directors of the House Fiscal Agency and Senate Fiscal Agency, agreed to a revised economic forecast for the calendar year (CY) 2024 and 2025 and an initial forecast for 2026. The economic outlook is much improved from the May 2023 forecast as the economy avoided a recession and posted stronger than expected growth in 2023. Table 1 provides the figures agreed upon at the conference and the summary text incorporates some economic data released since the conference.

## 2023 U.S. Economic Review

During 2023, the economy was resilient as interest rate increases and relatively high inflation did not tip the overall economy into recession. Strong employment growth, low unemployment rates and inflation falling from recent highs contributed to the positive economic growth in 2023. Real GDP declined slightly in the first half of 2022 due to inventory and trade fluctuations while the fundamentals of the economy continued modest growth. Since the third quarter of 2022, real GDP has grown at a solid rate. Real GDP growth was strong in 2023Q4 and increased 3.3 percent boosted by personal consumption, government spending, and net exports.

Source: Bureau of Economic Analysis

While growing more slowly in 2023 compared with the prior year’s rapid growth, U.S. employment growth remained at historically high rates in 2023. Averaging 492,000 jobs per month in FY 2022, monthly employment gains slowed to 266,000 in FY 2023. Job gains trended modestly slower across calendar year 2023. Monthly gains averaged 257,000 jobs per month over the first half of

the calendar year before slowing to 193,000 jobs per month over the second half. In December 2023, wage and salary employment was 1.7 percent higher than a year ago. U.S. employment was 4.9 million jobs above its pre-pandemic peak level in December 2023.

The U.S. unemployment rate remained historically low and was between 3.4 percent and 3.8 percent during 2023. Since 2022, the unemployment rate has not been above 4.0 percent. In December 2023, the rate stood at 3.7 percent.

Consumer sentiment began to recover in 2023 from the lows recorded in 2022 when high inflation was high. The index was up to 71.5 by July 2023, up significantly from the 50.0 recorded in June 2022 when inflation severely affected consumers' purchasing power. The index had fallen to 61.3 by November due to the potential government shutdown and inflation persisting in some areas but increased to 69.7 in December.

As the auto industry adapted to manage production in an environment of supply chain constraints, light vehicle sales increased from 13.8 million units in 2022 to 15.6 million units in 2023. Light trucks sales grew to 12.5 million units in 2023 (an increase of 14.1 percent from 2022). Total light vehicle sales are expected to continue to be driven by light trucks sales in the coming years.

Source: Bureau of Economic Analysis

Price inflation slowed from its historic highs reached in 2022. Between October 2022 and June 2023, year-over-year increases in the U.S. consumer price index (CPI) decelerated from 7.7 percent to 3.0 percent. Year-over-year CPI increases accelerated to 3.7 percent in August, and also in September, until finally receding and dropping to 3.2 percent in October, and to 3.1 percent in November. In December, year-over-year CPI increased to 3.4 percent. The less volatile core U.S. CPI, which excludes food and energy, also moved at a slower pace in 2023 compared to last year's historically rapid rates. Year-over-year core CPI increases decelerated from 6.3 percent in October 2022 to 3.9 percent by December 2023. The personal consumption expenditure (PCE) deflator, the Federal Reserve's preferred inflation measure, slowed

substantially in 2023. The year-over-year increase in the PCE deflator decelerated between October 2022 and November 2023 from 6.3 percent to 2.6 percent – the lowest year-over-year increase since February 2021 (1.9 percent). The year-over-year increase in the PCE deflator remained at 2.6 percent in December 2023.

The Federal Reserve continued its shift to a more contractionary policy regime through 2023. After having raised the federal funds rate 4.25 percentage points in CY 2022, the Fed increased the rate an additional 1.00 percentage point in CY 2023 to a 22-year high range of 5.25-5.50 percent. Noting that the impact of the tightening remains uncertain, the Fed slowed its rate of increase over the calendar year and left the federal funds rate unchanged in its last three meetings in 2023. The Fed continued decreasing its asset holdings in calendar year 2023 – reducing its holdings by 9.9 percent from the end of 2023 compared to the end of 2022.

### **2023 Michigan Economic Review**

After raising an average of 7,300 net jobs per month during 2022, Michigan wage and salary employment decelerated in 2023, with an average net gain of 3,800 jobs per month during 2023. Employment losses in 2023 were concentrated on the second half of the year, notably in September and October, and largely reflect the temporary impact of the UAW strike during this period. In December 2023, Michigan wage and salary employment stood at 4.4 million, with a year-to-date net gain of 45,700 jobs.

The quiet resilience of the job market in Michigan resulted in a continued decline in the state unemployment rate in the first half of 2023. After the Michigan unemployment rate registered 4.0 in April 2022, it fell further to 3.8 percent a year later. The rate continued to decline to 3.6 percent in June 2023 – the lowest unemployment rate in more than two decades, since June 2000. The rate remained under 4.0 percent for the coming months until it increased to 4.1 percent in October, and then to 4.3 percent in November.

Michigan's labor force participation rate increased steadily in 2023, after losing momentum in 2022. From the 2022 annual labor force participation rate of 59.9 percent, the Michigan rate climbed every month in 2023, reaching 61.8 in October 2023, and 62.1 percent in November 2023 and 62.2 percent in December 2023.

Compared to the prior year, Michigan personal income increased in all quarters from 2022Q2 through 2023Q3, reflecting the strength in earnings from work, and in dividends, interest and rent income during the period. Overall, Michigan personal income increased at a year-over-year rate of 3.6 percent in 2022Q3 and increased to 4.6 percent in 2023Q3.

In 2023, Michigan motor vehicle production was down slightly from 2022. For 2023, total Michigan motor vehicle production decreased to 2.0 million units, 9.8 percent lower than in 2022, and reflected decreasing light truck production during the year.

U.S. Consensus Economic Outlook: 2024 - 2026

Despite the global economic and geopolitical issues, changes in demand for goods and services, supply-chain constraints, and raising interest rates, the U.S. economy remained resilient in 2023, avoiding a recession. It is poised to continue to grow in the coming years.

Real GDP is projected to grow 1.8 percent in 2024, 2.0 percent in 2025 and 2.1 percent in 2026 (see Table 1). This is a significant increase in the growth forecast from the last conference in May 2023, as the forecast expects no negative growth in 2024, nor in any of the next two years.

U.S. wage and salary employment is projected to rise 1.1 percent in 2024, and at a more moderate pace in the next years, increasing 0.6 percent in 2025, and 0.7 percent in 2026. The U.S. unemployment rate is forecast to rise from 3.7 percent in 2023 to 4.2 percent in 2024, remain at 4.2 percent in 2025, and fall to 4.1 percent in 2026. Inflation in consumer prices, as measured by the U.S. Consumer Price Index, are expected to rise 3.0 percent in 2024, and to increase at a slower rate of 2.6 percent in 2025 and 2.4 percent in 2026.

Michigan Consensus Economic Outlook: 2024 - 2026

Michigan’s economy performed well in 2023 with better than expected wage and salary employment as the overall economy grew faster than projected.

Michigan wage and salary employment is expected to increase 0.7 percent in 2024, 0.6 percent in 2025, and 0.3 percent in 2026. Michigan’s unemployment rate is expected to rise from an estimated 3.9 percent in 2023 to 4.4 percent in 2024. The unemployment rate is expected to remain at 4.4 percent in 2025, before falling to 4.3 percent in 2026. Michigan personal income is projected to rise 3.4 percent in 2024 and then rise 4.1 percent in 2025 and 3.7 percent in 2026.

<sup>1</sup> Capital Outlay appropriations for department projects are included in department totals. (Capital Outlay only captures where appropriations are included in specific Capital Outlay department.)

<sup>2</sup> FY 2018 Department of Technology, Management and Budget includes \$35M GF/GP for the Michigan Infrastructure Reserve Fund.

<sup>3</sup> FY 2018 Department of Technology, Management and Budget includes \$25M GF/GP for the Drinking Water Declaration of Emergency Reserve Fund.

<sup>4</sup> FY 2023 does not include \$50M GF/GP Treasury boilerplate appropriation included in PA 166 of 2022.

<sup>5</sup> FY 2023 includes PA 320 & 321 of 2023 (takes effect 02/1/24).

STATE OF MICHIGAN

OFFICE OF THE GOVERNOR  
LANSING

GRETCHEN WHITMER  
GOVERNOR

GARLIN GILCHRIST II  
LT. GOVERNOR

February 7, 2024

Members of the Legislature and Citizens of the State of Michigan:

Article XI, Section 5, of the Michigan Constitution of 1963 provides that increases in rates of compensation for employees in the state-classified service authorized by the Civil Service Commission require prior notice to the Governor. The Constitution also requires that I, as Governor, transmit such increases to the Legislature as part of my budget recommendation. With this letter, I am officially transmitting the compensation adjustments for your review.

The attached cost summary, prepared by the Office of the State Employer, details additional costs for compensation. Represented and non-exclusively represented employees are scheduled to receive a 5 percent base wage increase in fiscal year 2025 on Oct. 1, 2024. The Office of State Employer has estimated that the total additional cost from all funding sources of these pay recommendations is \$267.3 million for fiscal year 2025. I have incorporated the costs into my Executive Budget Recommendation.

The Constitution provides that the Michigan Legislature may, by a two-thirds vote of the members elected to and serving in each house, reject or reduce a Civil Service Commission compensation adjustment within 60 calendar days of transmission by the Governor. I urge the Legislature to accept the compensation adjustment as recommended by the Civil Service Commission.

Sincerely,

A handwritten signature in blue ink that reads "Gretchen Whitmer".

Gretchen Whitmer  
Governor
