1960 MSBO Board of Directors
MSBO’s membership voted on four resolutions at the 2012 annual meeting focusing on professional development, informational and operations leadership and acknowledged the contribution of the special role of our Associate Members. This 2011-12 MSBO Annual Report reflects the philosophy of those resolutions in our workshops, programs and products and services.

MSBO believe its members should be leaders and that effective leadership and management requires a defined set of knowledge and skills as well as common sense. We seek to offer timely and relevant professional development so our members can promote and enhance the delivery of education to Michigan’s children. We also provide solutions in the form of efficient products and services that allow school districts to maximize resources in the classroom and play an integral role in providing factual and accurate data to Michigan’s schools, legislative leaders and communities.

If you have any questions concerning your membership with MSBO, please contact MSBO Executive Director David Martell or me.

MSBO Voluntary Certification

MSBO certification is a voluntary system, established in 1998. It provides focused training to school business officials in order to:

- Offer practical information that will help school business officials succeed and excel in their employment; and,
- Establish a basis for advancing professionalism of school business officials and assuring school districts that current or prospective business officials have a base of knowledge about laws, regulations, and procedures for functioning in a Michigan school district.

The program is endorsed by both the Michigan Association of School Boards (MASB) as well as the Michigan Association of School Administrators (MASA). MSBO offers 12 separate tracks.

Through the years, more than 1,800 members have earned a MSBO Voluntary Certification Award.

Michigan Liquid Asset Fund Plus (MILAF+)
In 1987, MSBO, MASA, and MASB collaborated to form the Michigan Liquid Asset Fund Plus program. Districts that utilize the many banking-related services such as check writing, investment of bond proceeds, online Internet services and fixed investing also take advantage of the Fund’s AAAm rating, security, and liquidity. Currently 422 districts and other public entities participate in this program.

Michigan Schools Energy Cooperative (MISEC)
Michigan Schools Energy Cooperative (MISEC) was established in 1997 by MSBO, MASA, MAISA, MCEA, and MASB as a joint venture to take full advantage of cost-saving opportunities provided by energy deregulation.

Munetrix School Edition:
MSBO began to search the marketplace for a solution that would have the ability to use financial information submitted to the Michigan Department of Education (MDE) to determine cost effective and best practice models. No widely used and independent mechanism has existed to accurately determine the “fiscal health” of a school district… until now. Munetrix™ School Edition allows for:

- building long-term financial forecasts and trends
- best-practice benchmarking and peer group comparisons
- analysis including fiscal indicator scores
- easy-to-understand access to sometimes confusing financial information for the community and school board

PaySchools
PaySchools is an online payment processing system that provides schools with an easy and efficient method to collect fees and receive electronic payments for school lunches, field trips, prom tickets, and any other school-related fees. PaySchools makes it possible for all schools to offer parents the convenience of online purchasing without incurring large administration or setup costs. Payments are automatically processed and the money is transferred to the school’s local bank account(s).

PublicSurplus.com
Want to reach more potential buyers when selling surplus or used items from your district? Use this site to maximize the price you’ll receive. Michigan districts have used it successfully for the last 4 years. It allows members to reach a national, even international, audience for buses, equipment and anything else school districts may wish to sell.

Purchasing Card Consortium
The Consortium, similar to a credit card program, but better - allows school districts greater control of their expenses, saves time and money and allows all districts to participate with the same, low fee structure. The 5th year was another great success for the program with districts earning approximately $300,000 in rebates for the calendar year 2011.

SafeSchools
SafeSchools is a partner with MSBO, MASA and MASB and is an online safety training and tracking system designed specifically for school employees. Save training dollars and increase the opportunities for your staff to receive quality, timely training through SafeSchools.com. With more than 120 online programs and 40 more being planned, SafeSchools offers a tremendous value to districts.
