Breakout Sessions

Opening Super Session: Help Your District Improve Early Literacy — Dr. Nell K. Duke
Improving literacy requires leadership. Learn how we, as business officials, can do our part to support improvements in early literacy. Concrete steps that district administrators should take—and avoid—to improve early literacy outcomes in their districts will be identified. Given the importance of early literacy skills, there is no better time to revisit and intensify your district’s literacy strategy. Leave with a better understanding of the problems and ideas to improve early literacy in your district as you work to finalize your budget.

Alliance Building/Advocacy

One of MSBO’s roles is to advocate for membership and serve in an expert capacity, whether it be providing testimony at a state Senate or House legislative committee, or working with a state stakeholders group that is addressing education and school administration policy.

MSBO’s long standing policy in legislative issues remains to be the role of providing facts, data, and testimony when requested by other groups or the legislature. MSBO staff represents members and the school community at a number of state agencies, department stakeholders groups, and other organizations, always providing expert input on numerous issues to address the needs of MSBO members.
MSBO has created awards to help school districts celebrate successes and to recognize the extraordinary contribution of individuals to their school district and MSBO.
