KEYNOTE SPEAKER - Walt Stasinski

I talk with audiences about how to achieve success by having fun in their work, in their lives. I inspire leaders to lead from the heart for improved employee performance. How to create customer loyalty through C.A.R.E. and how to communicate to impress colleagues and audiences. Audience members say that my keynote presentations make them feel inspired, happy, and ready to employ the practical ideas that I share with them. This will help to make your Conference or Event a success.
