Dear Legislators:

SUBJECT: Supplemental Request 2020-2

Attached please find a recommendation for supplemental education omnibus appropriations for fiscal year 2020. Overall spending in this recommendation is increased $41.6 million, fund sourced by a decrease of $3.8 million in school aid fund authorization, an increase of $35 million from the talent investment fund, an increase of $400,000 in community district education trust fund authorization, and an increase of $10 million in federal authorization. The total general fund amount supporting the School Aid budget is retained at $62.6 million.

This supplemental recognizes a savings of $3.4 million in the School Aid budget which reflect revised estimates for the number of pupils, property taxable values, promise zone reimbursement payments, and special education costs. These figures are consistent with those agreed to at the January 2020 Consensus Revenue Estimating Conference. In addition, the supplemental increases federal authorization by $10 million.

This supplemental also appropriates $35 million from the Talent Investment Fund for the Michigan Reconnect Grant Program. This program provides a tuition-free opportunity for Michigan residents who are at least 25 years old and already in the workforce to advance their education by taking courses towards an industry certificate or an associate degree. An early advance of funds will allow students to begin taking advantage of this program as early as this summer. At the end of fiscal year 2020, remaining funds will be carried forward through a work project and are expected to support the program in fiscal year 2021.

If you have any questions about this supplemental, please contact Kyle Jen at (517) 373-0870.

Sincerely,

Chris Kolb
State Budget Director

The People of the State of Michigan Enact:

Article I

State Aid to Public Schools, Early Childhood, And Adult Education

Sec. 11. (1) For the fiscal year ending September 30, 2020, there is appropriated for the public schools of this state and certain other state purposes relating to education the sum of $13,287,765,000.00 from the state school aid fund, the sum of $62,620,000.00 from the general fund, an amount not to exceed $75,400,000.00 from the community district education trust fund created under section 12 of the Michigan trust fund act, 2000 PA 489, MCL 12.262, an amount not to exceed $1,900,000.00 from the MPSERS retirement obligation reform reserve fund, and an amount not to exceed $100.00 from the water emergency reserve fund. In addition, all available federal funds are appropriated for the fiscal year ending September 30, 2020.

(2) The appropriations under this section are allocated as provided in this article. Money appropriated under this section from the general fund must be expended to fund the
purposes of this article before the expenditure of money appropriated under this section from the state school aid fund.

(3) Any general fund allocations under this article that are not expended by the end of the fiscal year are transferred to the school aid stabilization fund created under section 11a.

Sec. 22a. (1) From the appropriation in section 11, there is allocated an amount not to exceed $5,057,000,000.00 for 2018-2019 and there is allocated an amount not to exceed $4,943,000,000.00 - $4,922,000,000.00 for 2019-2020 for payments to districts and qualifying public school academies to guarantee each district and qualifying public school academy an amount equal to its 1994-95 total state and local per pupil revenue for school operating purposes under section 11 of article IX of the state constitution of 1963. Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does not apply to a district in a year in which the district levies a millage rate for school district operating purposes less than it levied in 1994. However, subsection (2) applies to calculating the payments under this section. **Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c in order to fully fund those calculated allocations for the same fiscal year.**

(2) To ensure that a district receives an amount equal to the district’s 1994-95 total state and local per pupil revenue for school operating purposes, there is allocated to each district a state portion of the district’s 1994-95 foundation allowance in an amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a district’s 1994-95 foundation allowance is an amount equal to the district’s 1994-95 foundation allowance or $6,500.00, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district’s certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district’s membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the district’s foundation allowance is increased by the amount of the reduction. The district is required to use all of these funds to reduce the district’s property tax rate as required by section 31 and to be applied toward the cost of reducing the district’s property tax rate in order to apply for the foundation allowance increased by the amount of the reduction applied toward the cost of reducing the district’s property tax rate.
constitution of 1963, the department shall calculate the state portion of the district’s foundation allowance as if that reduction did not occur. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, taxable value per membership pupil of all property in the receiving district that is nonexempt property and taxable value per membership pupil of property in the receiving district that is commercial personal property do not include property within the geographic area of the dissolved district; ad valorem property tax revenue of the receiving district captured under tax increment financing acts does not include ad valorem property tax revenue captured within the geographic boundaries of the dissolved district under tax increment financing acts; and certified mills do not include the certified mills of the dissolved district. For a community district, the department shall reduce the allocation as otherwise calculated under this section by an amount equal to the amount of local school operating tax revenue that would otherwise be due to the community district if not for the operation of section 386 of the revised school code, MCL 380.386, and the amount of this reduction is offset by the increase in funding under section 22b(2).

(b) For a district that had a 1994-95 foundation allowance greater than $6,500.00, the state payment under this subsection is the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision must be equal to the difference between the district’s 1994-95 foundation allowance minus $6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount is an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there is not a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under tax increment financing acts divided by the district’s membership. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, ad valorem property tax revenue captured under tax increment financing
acts do not include ad valorem property tax revenue captured within the geographic
boundaries of the dissolved district under tax increment financing acts.

(3) Beginning in 2003-2004, for pupils in membership in a qualifying public school
academy, there is allocated under this section to the authorizing body that is the fiscal
agent for the qualifying public school academy for forwarding to the qualifying public
school academy an amount equal to the 1994-95 per pupil payment to the qualifying public
school academy under section 20.

(4) A district or qualifying public school academy may use funds allocated under this
section in conjunction with any federal funds for which the district or qualifying public
school academy otherwise would be eligible.

(5) Except as otherwise provided in this subsection, for a district that is formed or
reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation,
the resulting district’s 1994-95 foundation allowance under this section beginning after
the effective date of the consolidation or annexation is the average of the 1994-95
foundation allowances of each of the original or affected districts, calculated as provided
in this section, weighted as to the percentage of pupils in total membership in the
resulting district in the fiscal year in which the consolidation takes place who reside in
the geographic area of each of the original districts. If an affected district’s 1994-95
foundation allowance is less than the 1994-95 basic foundation allowance, the amount of
that district’s 1994-95 foundation allowance is considered for the purpose of calculations
under this subsection to be equal to the amount of the 1994-95 basic foundation allowance.
This subsection does not apply to a receiving district unless there is a subsequent
consolidation or annexation that affects the district.

(6) Payments under this section are subject to section 25g.

(7) As used in this section:

(a) “1994-95 foundation allowance” means a district’s 1994-95 foundation allowance

For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, school operating taxes do not include school operating taxes levied within the geographic area of the dissolved district.

(n) “Taxable value per membership pupil” means each of the following divided by the district’s membership:

(i) For the number of mills by which the exemption from the levy of school operating taxes on a principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, commercial personal property, and property occupied by a public school academy may be reduced as provided in section 1211 of the revised school code, MCL 380.1211, the taxable value of principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, commercial personal property, and property occupied by a public school academy for the calendar year ending in the current fiscal year. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, mills do not include mills within the geographic area of the dissolved district.

debt obligations of the dissolved district under section 12 of the revised school code, MCL
380.12, school operating taxes do not include school operating taxes levied within the
geographic area of the dissolved district.

Sec. 22b. (1) For discretionary nonmandated payments to districts under this section,
there is allocated for 2019-2020 an amount not to exceed $4,480,600,000.00
$4,498,200,000.00 from the state school aid fund and general fund appropriations in section
11 and an amount not to exceed $75,400,000.00 $75,800,000.00 from the community district
education trust fund appropriation in section 11. Except for money allocated from the
community district trust fund, money allocated under this section that is not expended in
the state fiscal year in which it was allocated, as determined by the department, may be
used to supplement the allocations under sections 22a and 51c in order to fully fund those
calculated allocations for the same fiscal year.

(2) Subject to subsection (3) and section 296, the allocation to a district under
this section is an amount equal to the sum of the amounts calculated under sections 20,
51a(2), 51a(3), and 51a(11), minus the sum of the allocations to the district under
sections 22a and 51c. For a community district, the allocation as otherwise calculated
under this section is increased by an amount equal to the amount of local school operating
tax revenue that would otherwise be due to the community district if not for the operation
of section 386 of the revised school code, MCL 380.386, and this increase must be paid from
the community district education trust fund allocation in subsection (1) in order to offset
the absence of local school operating revenue in a community district in the funding of the
state portion of the foundation allowance under section 20(4).

(3) In order to receive an allocation under subsection (1), each district must do all
of the following:

(a) Comply with section 1280b of the revised school code, MCL 380.1280b.

(b) Comply with sections 1278a and 1278b of the revised school code, MCL 380.1278a
and 380.1278b.

(c) Furnish data and other information required by state and federal law to the
center and the department in the form and manner specified by the center or the department,
as applicable.

(d) Comply with section 1230g of the revised school code, MCL 380.1230g.
(e) Comply with section 21f.

(f) For a district or public school academy that has entered into a partnership agreement with the department, comply with section 22p.

(g) For a district or public school academy that offers kindergarten, comply with section 104(4).

(4) Districts are encouraged to use funds allocated under this section for the purchase and support of payroll, human resources, and other business function software that is compatible with that of the intermediate district in which the district is located and with other districts located within that intermediate district.

(5) From the allocation in subsection (1), the department shall pay up to $1,000,000.00 in litigation costs incurred by this state related to commercial or industrial property tax appeals, including, but not limited to, appeals of classification, that impact revenues dedicated to the state school aid fund.

(6) From the allocation in subsection (1), the department shall pay up to $1,000,000.00 in litigation costs incurred by this state associated with lawsuits filed by 1 or more districts or intermediate districts against this state. If the allocation under this section is insufficient to fully fund all payments required under this section, the payments under this subsection must be made in full before any proration of remaining payments under this section.

(7) It is the intent of the legislature that all constitutional obligations of this state have been fully funded under sections 22a, 31d, 51a, 51c, and 152a. If a claim is made by an entity receiving funds under this article that challenges the legislative determination of the adequacy of this funding or alleges that there exists an unfunded constitutional requirement, the state budget director may escrow or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the claim before making any payments to districts under subsection (2). If funds are escrowed, the escrowed funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of litigation. The work project is completed upon resolution of the litigation.

(8) If the local claims review board or a court of competent jurisdiction makes a final determination that this state is in violation of section 29 of article IX of the
state constitution of 1963 regarding state payments to districts, the state budget director
shall use work project funds under subsection (7) or allocate from the discretionary funds
for nonmandated payments under this section the amount as may be necessary to satisfy the
amount owed to districts before making any payments to districts under subsection (2).

(9) If a claim is made in court that challenges the legislative determination of the
adequacy of funding for this state’s constitutional obligations or alleges that there
exists an unfunded constitutional requirement, any interested party may seek an expedited
review of the claim by the local claims review board. If the claim exceeds $10,000,000.00,
this state may remove the action to the court of appeals, and the court of appeals has and
shall exercise jurisdiction over the claim.

(10) If payments resulting from a final determination by the local claims review
board or a court of competent jurisdiction that there has been a violation of section 29 of
article IX of the state constitution of 1963 exceed the amount allocated for discretionary
nonmandated payments under this section, the legislature shall provide for adequate funding
for this state’s constitutional obligations at its next legislative session.

(11) If a lawsuit challenging payments made to districts related to costs reimbursed
by federal title XIX Medicaid funds is filed against this state, then, for the purpose of
addressing potential liability under such a lawsuit, the state budget director may place
funds allocated under this section in escrow or allocate money from the funds otherwise
allocated under this section, up to a maximum of 50% of the amount allocated in subsection
(1). If funds are placed in escrow under this subsection, those funds are a work project
appropriation and the funds are carried forward into the following fiscal year. The purpose
of the work project is to provide for any payments that may be awarded to districts as a
result of the litigation. The work project is completed upon resolution of the litigation.
In addition, this state reserves the right to terminate future federal title XIX Medicaid
reimbursement payments to districts if the amount or allocation of reimbursed funds is
challenged in the lawsuit. As used in this subsection, “title XIX” means title XIX of the
social security act, 42 USC 1396 to 1396w-5.

Sec. 26c. (1) From the appropriation in section 11, there is allocated an amount not
to exceed $3,400,000.00 for 2018-2019 and there is allocated an amount not to exceed
$8,400,000.00-$7,400,000.00 for 2019-2020 to the promise zone fund created in subsection
(3). The funds allocated under this section reflect the amount of revenue from the
collection of the state education tax captured under section 17 of the Michigan promise zone authority act, 2008 PA 549, MCL 390.1677.

(2) Funds allocated to the promise zone fund under this section must be used solely for payments to eligible districts and intermediate districts, in accordance with section 17 of the Michigan promise zone authority act, 2008 PA 549, MCL 390.1677, that have a promise zone development plan approved by the department of treasury under section 7 of the Michigan promise zone authority act, 2008 PA 549, MCL 390.1667. Eligible districts and intermediate districts shall use payments made under this section for reimbursement for qualified educational expenses as defined in section 3 of the Michigan promise zone authority act, 2008 PA 549, MCL 390.1663.

(3) The promise zone fund is created as a separate account within the state school aid fund to be used solely for the purposes of the Michigan promise zone authority act, 2008 PA 549, MCL 390.1661 to 390.1679. All of the following apply to the promise zone fund:

(a) The state treasurer shall direct the investment of the promise zone fund. The state treasurer shall credit to the promise zone fund interest and earnings from fund investments.

(b) Money in the promise zone fund at the close of a fiscal year remains in the promise zone fund and does not lapse to the general fund.

(4) Subject to subsection (2), the state treasurer may make payments from the promise zone fund to eligible districts and intermediate districts under the Michigan promise zone authority act, 2008 PA 549, MCL 390.1661 to 390.1679, to be used for the purposes of a promise zone authority created under that act.

(5) Notwithstanding section 17b, the department shall make payments under this section on a schedule determined by the department.

(f) “HHS-OCC” means the HHS Office of Child Care.
(g) “HHS-SAMHSA” means the HHS Substance Abuse and Mental Health Services
Administration.

Sec. 51a. (1) From the appropriation in section 11, there is allocated an amount not to exceed $1,008,996,100.00 for 2018-2019 and there is allocated an amount not to exceed $1,045,196,100.00 for 2019-2020 from state sources and all available federal funding under sections 611 to 619 of part B of the individuals with disabilities education act, 20 USC 1411 to 1419, estimated at $370,000,000.00 each fiscal year for 2018-2019 and for 2019-2020, plus any carryover federal funds from previous year appropriations. In addition, from the general fund appropriation in section 11, there is allocated to the department an amount not to exceed $500,000.00 for 2018-2019 for the purpose of subsection (16). The allocations under this subsection are for the purpose of reimbursing districts and intermediate districts for special education programs, services, and special education personnel as prescribed in article 3 of the revised school code, MCL 380.1701 to 380.1761; net tuition payments made by intermediate districts to the Michigan Schools for the Deaf and Blind; and special education programs and services for pupils who are eligible for special education programs and services according to statute or rule. For meeting the costs of special education programs and services not reimbursed under this article, a district or intermediate district may use money in general funds or special education funds, not otherwise restricted, or contributions from districts to intermediate districts, tuition payments, gifts and contributions from individuals or other entities, or federal funds that may be available for this purpose, as determined by the intermediate district plan prepared under article 3 of the revised school code, MCL 380.1701 to 380.1761. Notwithstanding section 17b, the department shall make payments of federal funds to districts, intermediate districts, and other eligible entities under this section on a schedule determined by the department.

(2) From the funds allocated under subsection (1), there is allocated the amount necessary, estimated at $286,800,000.00 for 2018-2019 and estimated at $297,800,000.00 for 2019-2020, for payments toward reimbursing districts and intermediate districts for 28.6138% of total approved costs of special education, excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Allocations under this subsection are made as follows:

(a) The department shall calculate the initial amount allocated to a district under this subsection toward fulfilling the specified percentages by multiplying the district’s
special education pupil membership, excluding pupils described in subsection (11), times
the foundation allowance under section 20 of the pupil’s district of residence, not to
exceed the basic foundation allowance under section 20 for the 2018-2019 fiscal year and
beginning with 2019-2020 not to exceed the target foundation allowance for the current
fiscal year, or, for a special education pupil in membership in a district that is a public
school academy, times an amount equal to the amount per membership pupil calculated under
section 20(6). For an intermediate district, the amount allocated under this subdivision
toward fulfilling the specified percentages is an amount per special education membership
pupil, excluding pupils described in subsection (11), and is calculated in the same manner
as for a district, using the foundation allowance under section 20 of the pupil’s district
of residence, not to exceed the basic foundation allowance under section 20 for the 2018-
2019 fiscal year and beginning with 2019-2020 not to exceed the target foundation allowance
for the current fiscal year.

(b) After the allocations under subdivision (a), the department shall pay a district
or intermediate district for which the payments calculated under subdivision (a) do not
fulfill the specified percentages the amount necessary to achieve the specified percentages
for the district or intermediate district.

(3) From the funds allocated under subsection (1), there is allocated for 2018-2019
an amount not to exceed $1,200,000.00 and there is allocated for 2019-2020 an amount not to
exceed $1,000,000.00 to make payments to districts and intermediate districts under this
subsection. If the amount allocated to a district or intermediate district for a fiscal
year under subsection (2)(b) is less than the sum of the amounts allocated to the district
or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the
district or intermediate district for the fiscal year an amount equal to that difference,
adjusted by applying the same proration factor that was used in the distribution of funds
under section 52 in 1996-97 as adjusted to the district’s or intermediate district’s
necessary costs of special education used in calculations for the fiscal year. This
adjustment is to reflect reductions in special education program operations or services
between 1996-97 and subsequent fiscal years. The department shall make adjustments for
reductions in special education program operations or services in a manner determined by
the department and shall include adjustments for program or service shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal
year to a district or intermediate district under subsection (2)(a) and (b) is not sufficient to fulfill the specified percentages in subsection (2), then the department shall pay the shortfall to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and shall adjust payments under subsection (3) as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district’s or intermediate district’s payments under this article for the fiscal year beginning on the October 1 following the determination and shall adjust payments under subsection (3) as necessary. However, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there is no deduction under this subsection.

(5) State funds are allocated on a total approved cost basis. Federal funds are allocated under applicable federal requirements, except that an amount not to exceed $3,500,000.00 may be allocated by the department each fiscal year for 2018-2019 and for fiscal year 2019-2020 to districts, intermediate districts, or other eligible entities on a competitive grant basis for programs, equipment, and services that the department determines to be designed to benefit or improve special education on a statewide scale.

(6) From the amount allocated in subsection (1), there is allocated an amount not to exceed $2,200,000.00 each fiscal year for 2018-2019 and for 2019-2020 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, “net increase in necessary costs” means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. The department shall determine net increase in necessary costs in a manner specified by the department.

(7) For purposes of sections 51a to 58, all of the following apply:

(a) “Total approved costs of special education” are determined in a manner specified by the department and may include indirect costs, but must not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include
salary and other compensation for all approved special education personnel for the program, including payments for Social Security and Medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services are reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.

(b) Beginning with the 2004-2005 fiscal year, a district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district shall report the cost of those support services for special education reimbursement purposes under this article. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.

(c) If the department determines before bookclosing for a fiscal year that the amounts allocated for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 will exceed expenditures for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56, then for a district or intermediate district whose reimbursement for that fiscal year would otherwise be affected by subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for that district or intermediate district and the department shall calculate reimbursement for that district or intermediate district in the same manner as it was for 2003-2004. If the
amount of the excess allocations under subsections (2), (3), (6), and (11) and sections
53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those
districts and intermediate districts under this subdivision, then the department shall
prorate calculations and resulting reimbursement under this subdivision on an equal
percentage basis. Beginning in 2015-2016, the amount of reimbursement under this
subdivision for a fiscal year must not exceed $2,000,000.00 for any district or
intermediate district.

(d) Reimbursement for ancillary and other related services, as defined by R 340.1701c
of the Michigan Administrative Code, is not provided when those services are covered by and
available through private group health insurance carriers or federal reimbursed program
sources unless the department and district or intermediate district agree otherwise and
that agreement is approved by the state budget director. Expenses, other than the
incidental expense of filing, must not be borne by the parent. In addition, the filing of
claims must not delay the education of a pupil. A district or intermediate district is
responsible for payment of a deductible amount and for an advance payment required until
the time a claim is paid.

(e) Beginning with calculations for 2004-2005, if an intermediate district purchases
a special education pupil transportation service from a constituent district that was
previously purchased from a private entity; if the purchase from the constituent district
is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the
intermediate district to the constituent does not result in any net change in the revenue
the constituent district receives from payments under sections 22b and 51c, then upon
application by the intermediate district, the department shall direct the intermediate
district to continue to report the cost associated with the specific identified special
education pupil transportation service and shall adjust the costs reported by the
constituent district to remove the cost associated with that specific service.

(8) A pupil who is enrolled in a full-time special education program conducted or
administered by an intermediate district or a pupil who is enrolled in the Michigan schools
for the deaf and blind is not included in the membership count of a district, but is
counted in membership in the intermediate district of residence.

(9) Special education personnel transferred from 1 district to another to implement
the revised school code are entitled to the rights, benefits, and tenure to which the
person would otherwise be entitled had that person been employed by the receiving district originally.

(10) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. The department shall deposit money that is refunded in the state treasury to the credit of the state school aid fund.

(11) From the funds allocated in subsection (1), there is allocated the amount necessary, estimated at $3,100,000.00 for 2018-2019 and estimated at $2,900,000.00 for 2019-2020, to pay the foundation allowances for pupils described in this subsection. The department shall calculate the allocation to a district under this subsection by multiplying the number of pupils described in this subsection who are counted in membership in the district times the sum of the foundation allowance under section 20 of the pupil’s district of residence not to exceed the basic foundation allowance under section 20 for the 2018-2019 fiscal year and beginning with 2019-2020 not to exceed the target foundation allowance for the current fiscal year, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy, times an amount equal to the amount per membership pupil under section 20(6). The department shall calculate the allocation to an intermediate district under this subsection in the same manner as for a district, using the foundation allowance under section 20 of the pupil’s district of residence, not to exceed the basic foundation allowance under section 20 for the 2018-2019 fiscal year and beginning with 2019-2020 not to exceed the target foundation allowance for the current fiscal year. This subsection applies to all of the following pupils:

(a) Pupils described in section 53a.

(b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.

(c) Pupils with an emotional impairment counted in membership by an intermediate district and provided educational services by the department of health and human services.

(12) If it is determined that funds allocated under subsection (2) or (11) or under section 51c will not be expended, funds up to the amount necessary and available may be used to supplement the allocations under subsection (2) or (11) or under section 51c in
order to fully fund those allocations. After payments under subsections (2) and (11) and section 51c, the department shall expend the remaining funds from the allocation in subsection (1) in the following order:

(a) 100% of the reimbursement required under section 53a.
(b) 100% of the reimbursement required under subsection (6).
(c) 100% of the payment required under section 54.
(d) 100% of the payment required under subsection (3).
(e) 100% of the payments under section 56.

(13) The allocations under subsections (2), (3), and (11) are allocations to intermediate districts only and are not allocations to districts, but instead are calculations used only to determine the state payments under section 22b.

(14) If a public school academy that is not a cyber school, as defined in section 551 of the revised school code, MCL 380.551, enrolls under this section a pupil who resides outside of the intermediate district in which the public school academy is located and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the intermediate district in which the public school academy is located and the public school academy shall enter into a written agreement with the intermediate district in which the pupil resides for the purpose of providing the pupil with a free appropriate public education, and the written agreement must include at least an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil. If the public school academy that enrolls the pupil does not enter into an agreement under this subsection, the public school academy shall not charge the pupil’s resident intermediate district or the intermediate district in which the public school academy is located the added costs of special education programs and services for the pupil, and the public school academy is not eligible for any payouts based on the funding formula outlined in the resident or nonresident intermediate district’s plan. If a pupil is not enrolled in a public school academy under this subsection, the provision of special education programs and services and the payment of the added costs of special education programs and services for a pupil described in this subsection are the responsibility of the district and intermediate district in which the pupil resides.

(15) For the purpose of receiving its federal allocation under part B of the
individuals with disabilities education act, Public Law 108-446, a public school academy
that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551,
and is in compliance with section 553a of the revised school code, MCL 380.553a, directly
receives the federal allocation under part B of the individuals with disabilities education
act, Public Law 108-446, from the intermediate district in which the cyber school is
located, as the subrecipient. If the intermediate district does not distribute the funds
described in this subsection to the cyber school by the part B application due date of July
1, the department may distribute the funds described in this subsection directly to the
cyber school according to the formula prescribed in 34 CFR 300.705 and 34 CFR 300.816.

(16) For a public school academy that is a cyber school, as defined in section 551 of
the revised school code, MCL 380.551, and is in compliance with section 553a of the revised
school code, MCL 380.553a, that enrolls a pupil under this section, the intermediate
district in which the cyber school is located shall ensure that the cyber school complies
with sections 1701a, 1703, 1704, 1751, 1752, 1756, and 1757 of the revised school code, MCL
380.1701a, 380.1703, 380.1704, 380.1751, 380.1752, 380.1756, and 380.1757; applicable
rules; and the individuals with disabilities education act, Public Law 108-446. From the
general fund appropriation under subsection (1), for 2018-2019 only the department shall
provide appropriate administrative funding to the intermediate district in which that cyber
school is located for the purpose of ensuring that compliance.

(17) For the purposes of this section, the department or the center shall only
require a district or intermediate district to report information that is not already
available from the financial information database maintained by the center.

Sec. 51c. As required by the court in the consolidated cases known as Durant v State
of Michigan, 456 Mich 175 (1997), from the allocation under section 51a(1), there is
allocated each for fiscal year for 2018-2019 and for 2019-2020 the amount necessary,
estimated at $663,500,000.00 for 2018-2019 and $689,100,000.00 for 2019-2020,
$691,600,000.00, for payments to reimburse districts for 28.6138% of total approved costs
of special education excluding costs reimbursed under section 53a, and 70.4165% of total
approved costs of special education transportation. Funds allocated under this section that
are not expended in the state fiscal year for which they were allocated, as determined by
the department, may be used to supplement the allocations under sections 22a and 22b in
order to fully fund those calculated allocations for the same fiscal year.
Sec. 56. (1) For the purposes of this section:

(a) “Membership” means for a particular fiscal year the total membership for the immediately preceding fiscal year of the intermediate district and the districts constituent to the intermediate district.

(b) “Millage levied” means the millage levied for special education pursuant to part 30 of the revised school code, MCL 380.1711 to 380.1741, including a levy for debt service obligations.

(c) “Taxable value” means the total taxable value of the districts constituent to an intermediate district, except that if a district has elected not to come under part 30 of the revised school code, MCL 380.1711 to 380.1741, membership and taxable value of the district are not included in the membership and taxable value of the intermediate district.

(2) From the allocation under section 51a(1), there is allocated $40,008,100.00 for 2018-2019 and an amount not to exceed $40,008,100.00 for 2019-2020 to reimburse intermediate districts levying millages for special education pursuant to part 30 of the revised school code, MCL 380.1711 to 380.1741. The purpose, use, and expenditure of the reimbursement are limited as if the funds were generated by these millages and governed by the intermediate district plan adopted pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1761. As a condition of receiving funds under this section, an intermediate district distributing any portion of special education millage funds to its constituent districts shall submit for departmental approval and implement a distribution plan.

(3) Except as otherwise provided in this subsection, reimbursement for those millages levied in 2017-2018 is made in 2018-2019 at an amount per 2017-2018 membership pupil computed by subtracting from $193,900.00 the 2017-2018 taxable value behind each membership pupil and multiplying the resulting difference by the 2017-2018 millage levied, and then subtracting from that amount the 2017-2018 local community stabilization share revenue for special education purposes behind each membership pupil for reimbursement of personal property exemption loss under the local community stabilization authority act, 2014 PA 86, MCL 123.1341 to 123.1362. Reimbursement in 2018-2019 for an intermediate district whose 2017-2018 allocation was affected by the operation of subsection (5) is an amount equal to 102.5% of the 2017-2018 allocation to that intermediate district.

(4) Except as otherwise provided in this subsection, reimbursement for those
milles levied in 2018-2019 is made in 2019-2020 at an amount per 2018-2019 membership pupil computed by subtracting from $201,800.00 the 2018-2019 taxable value behind each membership pupil and multiplying the resulting difference by the 2018-2019 millage levied, and then subtracting from that amount the 2018-2019 local community stabilization share revenue for special education purposes behind each membership pupil for reimbursement of personal property exemption loss under the local community stabilization authority act, 2014 PA 86, MCL 123.1341 to 123.1362. Reimbursement in 2019-2020 for an intermediate district whose 2017-2018 allocation was affected by the operation of subsection (4) is an amount equal to 102.5% of the 2017-2018 allocation to that intermediate district.

(4) The department shall ensure that the amount paid to a single intermediate district under this section does not exceed 62.9% of the total amount allocated under subsection (2).

(5) The department shall ensure that the amount paid to a single intermediate district under this section is not less than 75% of the amount allocated to the intermediate district under this section for the immediately preceding fiscal year.

Sec. 62. (1) For the purposes of this section:

(a) “Membership” means for a particular fiscal year the total membership for the immediately preceding fiscal year of the intermediate district and the districts constituent to the intermediate district or the total membership for the immediately preceding fiscal year of the area vocational-technical program.

(b) “Millage levied” means the millage levied for area vocational-technical education pursuant to sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, including a levy for debt service obligations incurred as the result of borrowing for capital outlay projects and in meeting capital projects fund requirements of area vocational-technical education.

(c) “Taxable value” means the total taxable value of the districts constituent to an intermediate district or area vocational-technical education program, except that if a district has elected not to come under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, the membership and taxable value of that district are not included in the membership and taxable value of the intermediate district. However, the membership and taxable value of a district that has elected not to come under sections 681 to 690 of the
revised school code, MCL 380.681 to 380.690, are included in the membership and taxable value of the intermediate district if the district meets both of the following:

(i) The district operates the area vocational-technical education program pursuant to a contract with the intermediate district.

(ii) The district contributes an annual amount to the operation of the program that is commensurate with the revenue that would have been raised for operation of the program if millage were levied in the district for the program under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690.

(2) From the appropriation in section 11, there is allocated an amount not to exceed $9,190,000.00 each fiscal year for 2018-2019 and for 2019-2020 to reimburse intermediate districts and area vocational-technical education programs established under section 690(3) of the revised school code, MCL 380.690, levying millages for area vocational-technical education pursuant to sections 681 to 690 of the revised school code, MCL 380.681 to 380.690. The purpose, use, and expenditure of the reimbursement are limited as if the funds were generated by those millages.

(3) Reimbursement for those millages levied in 2017-2018 is made in 2018-2019 at an amount per 2017-2018 membership pupil computed by subtracting from $205,700.00 the 2017-2018 taxable value behind each membership pupil and multiplying the resulting difference by the 2017-2018 millage levied, and then subtracting from that amount the 2017-2018 local community stabilization share revenue for area vocational technical education behind each membership pupil for reimbursement of personal property exemption loss under the local community stabilization authority act, 2014 PA 86, MCL 123.1341 to 123.1362.

(4) Reimbursement for those millages levied in 2018-2019 is made in 2019-2020 at an amount per 2018-2019 membership pupil computed by subtracting from $211,000.00 the 2018-2019 taxable value behind each membership pupil and multiplying the resulting difference by the 2018-2019 millage levied, and then subtracting from that amount the 2018-2019 local community stabilization share revenue for area vocational technical education behind each membership pupil for reimbursement of personal property exemption loss under the local community stabilization authority act, 2014 PA 86, MCL 123.1341 to 123.1362.

(4) The department shall ensure that the amount paid to a single intermediate district under this section does not exceed 38.4% of the total amount allocated under
subsection (2).

(5) The department shall ensure that the amount paid to a single intermediate
district under this section is not less than 75% of the amount allocated to the
intermediate district under this section for the immediately preceding fiscal year.
