Keynote Speaker
Rodney Page

We welcome this year’s speaker, Rodney Page. Rodney is a multi-talented individual, accomplished violinist, pianist and entertainer. After earning his bachelor’s and master’s degrees in music from Michigan State, he taught in two Michigan public school districts. He became a highly sought out music clinician in Michigan. His talent did not stop there, he now uses his music to energize and engage people to ensure their success and leaves them craving more. You may find him at a school assembly speaking and rapping on bullying and self-esteem or entertaining at a wedding. We are sure to be inspired by Rodney’s musical and motivational talents.
