173. **Emergency management**

Now available for free, this app from Raptor syncs with a school's SIS so faculty and staff can track when a student is "reunifying" with a parent or guardian, receiving a meal or delivering a homework assignment. One user selects the student and "initiates the reunification" on the program when a parent or guardian arrives on school property. This alerts another faculty or staff member on the app that the student has arrived and can bring the student, meal or homework to the car without the parent having to get out of the car. Schools also use the app to manage emergency evacuations and lockdowns. Request more information on how Raptor works (https://raptortech.com/request/?tfa\_6=District&tfa\_2277=Emergency%20Management).
