

School Payroll Specialist

Established in 1998, the MSBO Voluntary Certification Program supports the ongoing professional development of school business officials. The program is a mark of distinction that reflects professional achievement and demonstrates a person's dedication to his/her profession.

Benefits of School Payroll Specialist Certification

The School Payroll Specialist (SPS) certification:

1. provides access to information and training that is specific to Michigan law and regulation; and
2. provides a basis for advancing professionalism of School Payroll Specialists in Michigan schools.

The SPS Program

MSBO certification courses provide a great deal of information in a short time. Most courses are "bulleted" information rather than in-depth training. They are intended to cover major points about their respective topics, offer an opportunity for questions and discussion, and provide resource information for future use.

The recommended beginning course for School Payroll Specialist certification is *Introduction to School Business*. Although anyone may benefit from this or other individual certification courses, the full program is generally intended for School Payroll Specialists in their first 1-5 years of employment. However, any person employed in school business operations who meets the stated requirements may receive School Payroll Specialist certification. There is no requirement for holding a particular position in a school district.

Requirements

This program and the courses listed have been created and reviewed by the Professional Development Committee of MSBO. An applicant for certification must be a member of MSBO, and hold a Associate's Degree including 4 semester hours of accounting.

Read the reverse side of this sheet for brief descriptions of certification courses that are offered through MSBO. In some circumstances courses from other sources may be counted toward MSBO certification. *Please be aware that some courses and/or requirements may change. MSBO and the committees that created this program continue to evaluate and make minor modifications as deemed appropriate.*
