Questions were answered in the recording.

00:11:50 Nathon Jepkema: Happy Friday! Could you please repeat the product name again? Thanks

00:12:52 Ron Ouellette - Harbor Springs PS: Does it fail dark? if power is lost, does it revert to clear

00:14:37 Caleb Thelen: Does this have any benefits for thermal blocking if installed on a sun facing side of the building?

00:15:20 Austin Shumaker: What kind of power is needed? Do these have their own power supply or do they need wiring from the panels to supply power?

00:15:50 Herb Crawford: <https://riottint.com/>

Not sure if this is the same website, but its called Riot Tint

00:16:39 Austin Shumaker: <https://www.smarttint.com/>

I think this is the website; based on description this checks out.

00:19:47 Tim Peraino: NSPMA Annual Conference EXPO:

00:19:55 Tim Peraino: (Click Here for Event Info / Registration)
<https://nspma.com/events/>

00:23:50 Charles Smith: Each panel would need to be wired back to a power supply.

00:24:00 Matt Hess: HessM@CalSchools.org

00:25:46 Austin Shumaker: Have we heard about the funding release for Filter First Grants?

00:27:05 Tiffany Cavill: Has anyone not received their filter first award letter? I know a few districts have received theirs, but Oak Park has not.

00:31:10 Caleb Thelen: With new construction has anyone else been hearing about the 250MPH wind rating that is coming into play in April? What is everyone doing with this as it will increase construction costs drastically?

00:37:33 Austin Shumaker:

00:41:35 Daniel Bonga: Under 300 for the unit from Galloup

00:42:06 Ryan Vander Molen: Deanna, we are in a similar boat. At all our special ed buildings, we have a need (partly medical, partly behavioral) to provide consumable water in each classroom. Weighing options between in-line and point of use.
